	Cohort Size	140	120	88	96	101	153	192	164	169	214

Notes.

1. Retention and graduation rates are university-wide statistics: They do not necessarily reflect continued enrollment in, or graduation from, the college in which the student began.
2. Cohort size is the initial number of students. Consistent with IPEDS guidelines, however, graduation rates are calculated based on a cohort size adjusted for student mortality.
