# SCENES

In this activity, you will create a project that experiments with backdrops, like a story with multiple scenes or a slideshow.

## START HERE

❑ Choose from the library, paint, or upload multiple backdrops into your project.

❑ Experiment with blocks from the Looks and Events categories to initiate switching backdrops.

❑ Add scripts to the stage and sprites to coordinate what happens when the backdrop changes in your project!

## THINGS TO TRY

❑ Need more inspiration? Explore the Scratch online community to discover projects that use multiple backdrops.

## FINISHED?
