**CHARACTERS**

**DO YOU WANT TO CREATE YOUR OWN SCRATCH BLOCKS?**

Experiment with the Make a Block feature in Scratch! In this project, you will create your own blocks that define two behaviors for two different characters.

**START HERE**

- Choose from the library, paint, or upload two sprite characters.
- Click on the Make a Block button in the More Blocks category to create and name your block.
- Add blocks under the Define block to control what your custom block will do.
- Experiment with using your block to program your characters’ behaviors.
- Repeat!

**THINGS TO TRY**

- Feeling stuck? That’s okay! Check out this video to get started with the Make a Block feature: `http://bit.ly/makeablock`
- Explore other projects in the Characters Studio to see what new blocks others have created.
- Sometimes there can be more than one way of defining the same behavior. Experiment with different block combinations to try out multiple options and outcomes.

**FINISHED?**

- Add your project to the Characters Studio: `http://scratch.mit.edu/studios/475545`
- Challenge yourself to do more! Experiment with adding different characters and behaviors using the Make a Block feature.
- Help a neighbor!
