WHAT IS THE DIFFERENCE BETWEEN THE STAGE AND SPRITES?

In this activity, you will create a project that experiments with backdrops, like a story with multiple scenes or a slideshow.

Choose from the library, paint, or upload multiple backdrops into your project.

Experiment with blocks from the Looks and Events categories to initiate switching backdrops.

Add scripts to the stage and sprites to coordinate what happens when the backdrop changes in your project!

THINGS TO TRY

- Look for blocks under the sprites and the stage related to backdrop and test them out to see what they do!
- Need more inspiration? Explore the Scratch online community to discover projects that use multiple backdrops.

FINISHED?

- Add your project to the Scenes Studio: http://scratch.mit.edu/studios/475550
- Challenge yourself to do more! Add more backdrop changes to your project.
- Help a neighbor!
- Return to one of your previous projects or find a project you are inspired by and remix it by adding switching backdrops.
