Educational Leadership Program

MASTERS/CAS COHORT

For

FALL 2012

The Masters/CAS in Educational Leadership is an innovative graduate program designed to prepare leaders to enhance the performance of schools. It focuses on the connection between theory and practice as well as the cognitive, interpersonal, and intrapersonal dimensions of school leadership.

The Cohort experience begins in September 2012 and continues through June 2015. Classes meet in the Central Maine (Augusta) area and in students' schools. The classes are held on selected Monday evenings and Saturdays with semester schedules published well in advance.

Whether you wish to pursue a formal school leadership role or enhance your skills as a teacher leader, this program will help you achieve your goal!
