EXPERIENCE

Manufacturing Engineering Intern

GE Energy, Rotor Shop, Bangor, Maine May 2011 to Present

- Filled the position of a methods engineering intern in the area of **gas turbine shaft/rotor parts production team**. Self-managed many small projects under advisement from the lead M.E., while working on process improvement, work instruction creation, and reduction of cycle times, as well as ergonomics projects and shop floor layout designs to better aid in the flow of product. **AWO team member**. Introduced to **Six Sigma** and **Lean Manufacturing**.

Shop Engineer/ Intern

Maine Valve and Fitting, Hermon, Maine Feb 2011 to Present

- Handled all aspects of **CAD design and development for shop production**. Also worked with shop personnel in the filling of custom assembly orders. Brought CAD capabilities to the business as a tool for the shop to sell their designs as well as to utilize as build instructions. Oversaw many assemblies in a **self-managed leadership role**, as well as trained secondary assembler/ summer intern.

Shipping and Warehouse

Automatic Distributors, Bangor, Maine Oct 2006 to Feb. 2011

- Entrusted to handle all shipping aspects of the company; inspection of packages, handling of sensitive orders, oversaw that the logistics of shipping trucks. Warehouse duties as needed including picking and packing of orders, as well as receiving freight and handling projects for warehouse maintenance.

Intern

Milton CAT, Brewer, Maine Summer 2009

- CAT certified to operate a forklift and similar equipment. General duties included customer service, inventory management, painting, hazardous waste collection and management, and equipment operator.
