

Six 12-14 VDC inputs and four relay outputs (10 I/O) rated 5 amps @ 115 VAC. Processing speed is 1,000 lines/1 second. They include a 2-ft. power cord with a standard two-prong plug or you can hardwire directly to a 115 VAC supply. Both are DIN-rail or panel mountable (have two 0.138" dia. mounting holes, hardware not included). Both have screw-terminal connections. Run on 115 VAC.
