JOIN US IN AN EXCITING NEW MINOR IN

SUSTAINABLE FOOD SYSTEMS

The Sustainable Food Systems minor is designed for students in any discipline who wish to better understand and participate in the multifaceted food system, from farm to fork to wellness.

This new minor is offered jointly by the Departments of Plant, Soil and Environmental Sciences, Food Science and Human Nutrition, Anthropology, Maine Business School, and Cooperative Extension.

Explore a broad range of topics and disciplines following the common thread of food.

The minor requires three core courses:
- FSN 101 Introduction to Food and Nutrition
- PSE 105 Principles and Practices of Sustainable Agriculture
- PSE 312 Sustainable Food Systems (PSE 105 is a prerequisite)

Three elective courses are chosen from an approved list, including:
- ANT 212 The Anthropology of Food
- ECO 190 World Food Supply, Population and the Environment
- FSN 270 World Food and Nutrition
- many more options!
