EDUCATION & PROFESSIONAL EXPERIENCE

Education

- 2012 Ph.D. Ecological & Environmental Anthropology, University of Georgia, Athens, GA
2005 M.A. Latin American & Caribbean Studies/ Environmental Studies, Florida International University, Miami, FL
1997 B.A. Spanish, Ohio University, Athens, OH

Academic Appointments, Affiliations & Employment

- 2019 – Associate Professor, Department of Anthropology, University of Maine, Orono, ME
Graduate Program Coordinator, Anthropology, UMaine, Orono, ME (since 2018)
Fulbright Program Student Advisor, University of Maine, Orono, ME (since 2018)
Lambda Alpha National Anthropology Honors Society Chapter Advisor (since 2017)
Affiliated Faculty Member, Program in Ecology and Environmental Sciences (since 2018)
Cooperating Faculty Member, School of Marine Sciences (since 2015)
Cooperating Faculty Member, School of Economics (since 2015)
Faculty Associate, Senator George J. Mitchell Center for Sustainability Solutions (since 2015)
- 2019 Visiting Professor, Master's Program in Rural Development, Escuela Superior Politécnica del Litoral (ESPOL/ Polytechnic University), Guayaquil, Ecuador
- 2013-2019 Assistant Professor, Department of Anthropology, University of Maine, Orono, ME
- 2013 Instructor, Department of Anthropology, University of Georgia, Athens, GA
- 2012 Visiting Instructor, Development Studies, Emory University, Atlanta, GA
- 2009-2010 Fulbright Fellow in Ecuador, Institute of International Education
- 1999-2002 Study Abroad Advisor and Program Coordinator (College Consortium for International Studies - Ecuador & Greece), College of Staten Island of the City University of New York

Research & Teaching Interests

Human ecology, sustainability science, marine conservation, coastal areas, fisheries, mangroves, common pool resources, collective action, political ecology, environmental anthropology, economic anthropology, environmental governance and policy, renewable energy, international conservation and development

RESEARCH & SCHOLARSHIP

Research Grants & Contracts (* signifies external award; + denotes advisee)

- 2023* “Historical Uses of the Proposed Area of Interest for the Maine Offshore Wind Research Array”
Funded by the Maine Department of Marine Resources. CONTRACT #: 13A
20221212000000001647. January 1, 2023 – June 30, 2024. \$105,088.
- 2023* “NNA Research: Rapid Arctic change and its implications for fisheries and fishing communities of the western North Atlantic” (NSF-NNA # 2220564; PI: Rick Wahle; Co-PIs: Damien Brady, Joshua Stoll, Christine Beitel). January 1, 2023 - December 31, 2026. Awarded: \$1,426,793.
- 2019* Consultant on NSF-IBSS-L#1743019, “The Effect of Social Networks on Inequality: A Longitudinal Cross-Cultural Investigation.” (PI: Jeremy Koster; Co-PIs: Samuel Bowles, Matthew Jackson, Monique Borgerhoff Mulder, Eleanor Power). University of Cincinnati.

- 2019 Summer Faculty Research Award, “The Effect of Social Network Dynamics on Inequality and Social Wellbeing in Rural Ecuador,” Office of Research Development. Awarded: \$8,000.
- 2017 Scholarly Materials and Equipment Grant, “Visualizing Governance Change in Social-Ecological Systems.” Office of Research Development. Awarded: \$1500.
- 2016 Summer Faculty Research Award, “Evaluation of Policies Promoting Mangrove Conservation and Sustainable Livelihoods in Coastal Ecuador,” Office of Research Development. Awarded: \$8,000.
- 2014 ADVANCE NSF Research Seed Grant Award (#1008498), “Livelihood Decisions, Cultural Dynamics of Fishing Effort, and Implications for Management in Ecuadorian Artisanal Fisheries.” Rising Tide Center. Awarded: \$6,178.
- 2014 EPSCoR-NSF Sustainability Solutions Initiative (EPS-0904155), “Understanding Ecological, Social, and Economic Aspects of Bycatch and Building Stakeholder Alliances in the Gulf of Maine Lobster Fishery.” Senator George J. Mitchell Center for Sustainability Solutions. (Co-PIs Yong Chen, Christine Beitzl) Awarded: \$51,282.
- 2009* Fulbright Hays Doctoral Dissertation Research Abroad Fellowship, “Mangroves and Movements: Collective Action, Institutions, and Sustainability on the Ecuadorian Coast.” Awarded: \$15,442. (*Declined to accept other awards*).
- 2009* Wenner Gren Foundation Dissertation Fieldwork Grant (#8003), “Mangroves and Movements: Collective Action, Institutions, and Social-Ecological Resilience on the Ecuadorian Coast.” Awarded: \$5,690.
- 2009* Fulbright Fellowship, “Collective Action and Social-Ecological Resilience on the Ecuadorian Coast.” Institute of International Education. Awarded: \$11,250.
- 2008* National Science Foundation Doctoral Dissertation Improvement Grant (BCS-0819376), “From Resource Degradation to Collective Action: Community Associations and Sustainability on the Ecuadorian Coast.” (PI: Robert Rhoades, Co-PI: Christine Beitzl). Awarded: \$15,000.
- 2008 Tinker Foundation Grant to support dissertation feasibility research in Ecuador, “Landscapes and Livelihoods: Coping with Environmental Change through Livelihood Diversification and Community Management on the Ecuadorian Coast.” Latin American and Caribbean Studies Institute, University of Georgia. Awarded: \$1,050.
- 2006 Tinker Foundation Grant to support exploratory research in Ecuador, “Social and Ecological Impacts of Shrimp Aquaculture as an Impetus for Community-Based National Resource Management in Muisne, Ecuador” Latin American and Caribbean Studies Institute, University of Georgia. Awarded: \$800.
- 2006 Melissa Hague Field Study Award to support exploratory research in Ecuador, “Social and Ecological Impacts of Shrimp Aquaculture as an Impetus for Community-Based National Resource Management in Muisne, Ecuador.” Anthropology Dept, University of Georgia. \$500.
- 2005 Graduate Student Association Research Grant to support field research in Mexico, “Community-based ecotourism,” Florida International University. Awarded: \$250.
- 2005 Latin American and Caribbean Center Grant to support field research in Mexico, “Community-based ecotourism,” Florida International University. Awarded: \$300.
- 2004 Tinker Foundation Grant for summer library research in Cochabamba, Bolivia. Latin American and Caribbean Center, Florida International University. Awarded: \$850.

Synergistic Activities

- 2022 Cultural Evolution Society Transformation Fund to advance the applied efforts of a Sustainability Working Group led by Rebecca Koomen, Tim Waring and Vanessa Weinberger. Goals include: (a) developing a clear and shared vision of how cultural evolution can be used to advance sustainability goals, and (b) developing strategies to share that concrete vision with experts and practitioners in the sustainability policy and application domains.
- 2022 NNA Lobster Network: a transdisciplinary group of researchers from institutions and agencies based in the US and Canada working to better understand ecosystem regime shifts that affect productivity of fisheries in the Northwest Atlantic.
- 2022 Participant in the Webinar on Ocean Science and Policy in the Context of Academic Careers organized by Leopoldo Cavaleri Gerhardinger, University of Para, Brazil.
- 2022 Flagship Doctoral Fellowship: “Integrating Teaching, Research, and Service through the Enhancement of International Collaborations.” recipient of competitive funding awarded to five faculty members with a strong record of research success to support their long-term research trajectory through the recruitment of high quality doctoral students through the Flagship Fellowship Program. Awarded to support a graduate student for two years. Office of Research Development and the Graduate School.
- 2021 Member of the US-West Africa Atlantic Coastal Resilience Research Consortium (CRRC), an interdisciplinary group of researchers from institutions and agencies based in the US and West Africa working to better understand the biophysical processes that link coastlines on both sides of the Atlantic through the study of intense storms, sea level rise, and drivers of mangrove ecosystem health. A key goal of the CRRC is to provide capacity building and policy recommendations for building long-lasting resilience against these impacts and potential compounding effects of additional environmental stressors due to climate change.
- 2021 Fellow for the pilot program, “Racial Equity Fellows Learning Community on Teaching” (REFLeCT), Center for Innovation in Teaching and Learning (CITL). This learning community aims to develop teaching and reflective practices that advance racial equity. Participants grow their competencies in applied scholarship of teaching and learning.
- 2021 Strategic Development of the Mitchell Center Graduate Student Fellows Program. Senator George J. Mitchell Center for Sustainability Solutions. (PI: Rachel Schattman; Co-PIs: Jessica Jansujwicz, Christine Beitel, Heather Leslie, Aram Calhoun, Shaleen Jain). Awarded: \$ \$3,164.
- 2021 Strategic Development of the Sustainability Hub for Undergraduate Fellows: A New Initiatives Program. Senator George J. Mitchell Center for Sustainability Solutions. (PI: Francois Amar; Co-PIs: Donald Beith, Christine Beitel). Awarded: \$5,872
- 2021 Flagship Doctoral Fellowship: “Integrating Teaching, Research, and Service through the Enhancement of International Collaborations.” Awarded to support a graduate student for two years. Office of Research Development and the Graduate School.
- 2019 Collaborated with the National Fisheries Institute in Ecuador to develop a survey to advance knowledge of the social dimensions of small-scale fisheries (PI: Nikita Gaibor)
- 2019 Consultant in cross-cultural, longitudinal research to investigate the Economic Network Dynamics and the Origins of Wealth (Koster et al 2017, NSF-IBSS-L#1743019)
- 2019 Member of the research network Oceanografía Social (since 2017) and Co-Editor with N. Narchi on Book Project, *America Profunda: visiones y convergencias en la oceanografía social del continente*.
- 2018 Member of Too Big To Ignore (TBTI), a global partnership for small-scale fisheries research. <http://toobigtoignore.net/>
- 2017 Invited presentation for the Seminario Taller Internacional: Revisión y Estandarización de Técnicas y Metodologías para la Investigación del Recurso Concha (*Anadara tuberculosa*). Universidad Pontificia Bolivariana de Medellín. Medellín, Colombia (remote attendance). Nov. 13-17.

- 2017 Invited participant in the NSF School for Advanced Research (SAR) Seminar, “Open Property Regimes as Complex Adaptive Systems” organized by Mark Moritz in Santa Fe, New Mexico, Oct. 31 – Nov. 2.
- 2016 Participation in a collaboration led by The Nature Conservancy and the University of Cambridge to develop a global model of the role of mangroves in fisheries production. PIs: Philine zu Ermgassen and Mark Spalding (2016 – present).
- 2015 Presenter and participant at the luncheon for Advance Rising Tide Center Grant Awardees to celebrate Women in Leadership in Higher Education. University of Maine. March 26.
- 2014 Participant in workshop: Seeking Synergy Between Social and Natural Scientists for Good Governance in Fisheries and Coastal Communities, Organized by Madeline Hall-Arber and MIT Sea Grant, Massachusetts Institute of Technology, Cambridge, MA.
- 2010 Invited participant in the workshop: “Emerging Issues in Latin American Environmentalism” at the XXIX International Congress of the Latin American Studies Association. Toronto, Canada. October 6-9.
- 2010 Development of cooperative fisheries research training materials and protocols for monitoring mangrove cockles (*Anadara spp.*) in collaboration with the Association Isla Costa Rica, El Oro, Ecuador..

Field Research

- 2022 Collaborative research with Department of Marine Resources (DMR) and Maine Coast Fishermen’s Association (MCFA) on the Historical Uses of the Proposed Area of Interest for the Maine Offshore Wind Research Array. Dec 1, 2022 – June 30, 2024.
- 2019 ENDOW-Ecuador: Led a team of seven Ecuadorian students from ESPOL’s Master’s Program in Rural Development to collect data in one of 45+ communities in 32 countries worldwide, which was selected for a cross-cultural study on the emergence of wealth inequality (NSF-IBSS-L#1743019). We gathered baseline demographic and social network data, as well as information about household wealth, food security, and dietary diversity as it relates to mangrove dependence (August – Sept).
- 2019 Feasibility research in Ecuador: “Economic Network Dynamics and the Origins of Wealth (ENDOW) (NSF-IBSS-L#1743019) (January 2019).
- 2017 Fishermen’s local ecological knowledge in Maine; Co-Investigators, Josh Stoll and Emily Farr
- 2015 Feasibility study: Social, Ecological, and Economic Tradeoffs in Ecuador’s Mangrove Concessions, Guayaquil, Ecuador
- 2014 Sustainability Solutions Initiative: Collaborative research and social-ecological aspects of bycatch in the lobster fishery, Maine; Co-Principal Investigator with Yong Chen
- 2010 Field research for Ph.D. dissertation: Collective action and the environment in coastal Ecuador
- 2009 Field research for Ph.D. dissertation: Collective action and the environment in coastal Ecuador
- 2008 Dissertation feasibility study, Ecuador
- 2006 Dissertation exploratory research, Ecuador
- 2005 Community-based ecotourism in Mexico. Field research for M.A. thesis under the direction of David B. Bray
- 2005 Labor and living conditions among Haitian migrants in the sugar industry, Dominican Republic. Research assistantship under the direction of Eduardo Gamarra, Latin American and Caribbean Center, Florida International University
- 1997 Urban land invasions in Guayaquil, Research Internship at the Instituto Nacional de Estadísticas y Censos (INEC), Guayaquil, Ecuador
