

Acute and Long-Term Services for Elementary and Middle School Children with Early Childhood Brain Injury

Up to **80%** of children with a history of ABI present **unmet educational needs**

Less than **40%** of children injured between the ages of 5 and 15 **receive long-term care**

WHAT
NEEDS
TO BE
DONE?

Provide **long-term educational support** for children with ABIs.

Make **resources** for **educational** and **medical** needs more **accessible** for patients and their families.

Offer long-term **care and support** for children with ABIs.
