Total Credits Required for Graduation = 130

¹ The **Human Values & Social Context Electives (18 credits)** must be selected to meet the University of Maine General Education requirements. These should be selected from a list of approved courses to satisfy each of the five sub-categories: western cultural tradition, social context and institutions, cultural diversity and international perspectives, population and the environment, and artistic and creative expression. Some courses cover more than one sub-category.

² Students who are cooping in pulp and paper related industry should take **PPA 264** as a technical elective in place of **ECE 209** in the fourth term of the program. They should take **ECE 209** in place of one of the technical electives later in the program.

³ The **Advanced Chemistry Elective (3 credits)** should be an upper level (300 level or higher) chemistry course or chemical engineering or biochemistry course with significant chemistry content. The **Technical Electives (9 credits)** should be upper level (300 level or higher) engineering, mathematics or science courses. A list of approved courses is available at the Department Office or at <https://umaine.edu/chb/undergraduate-programs/tech-electives/>.

Ethics

The course sequence CHE 111, CHE 477, CHE 479 and CHE 493 satisfies the University of Maine General Education requirements for ethics. Transfer students who do not complete the sequence of courses should make sure that they satisfy the ethics requirement through their choice of Human Values and Social Context electives.
