

130 Estabrooke Hall

Instructor's Desk:

- Lapel Microphone
- Switch Box
- Touch Screen Control Panel
- HDMI Cable and Adapters
- i>Clicker Base

Classroom:

- Wall-to-wall White Boards
- Ten Tables
- One Screen and Microphone per Table
- Table-top Outlets
- Three HDMI Inputs at each Table

Connecting to the System

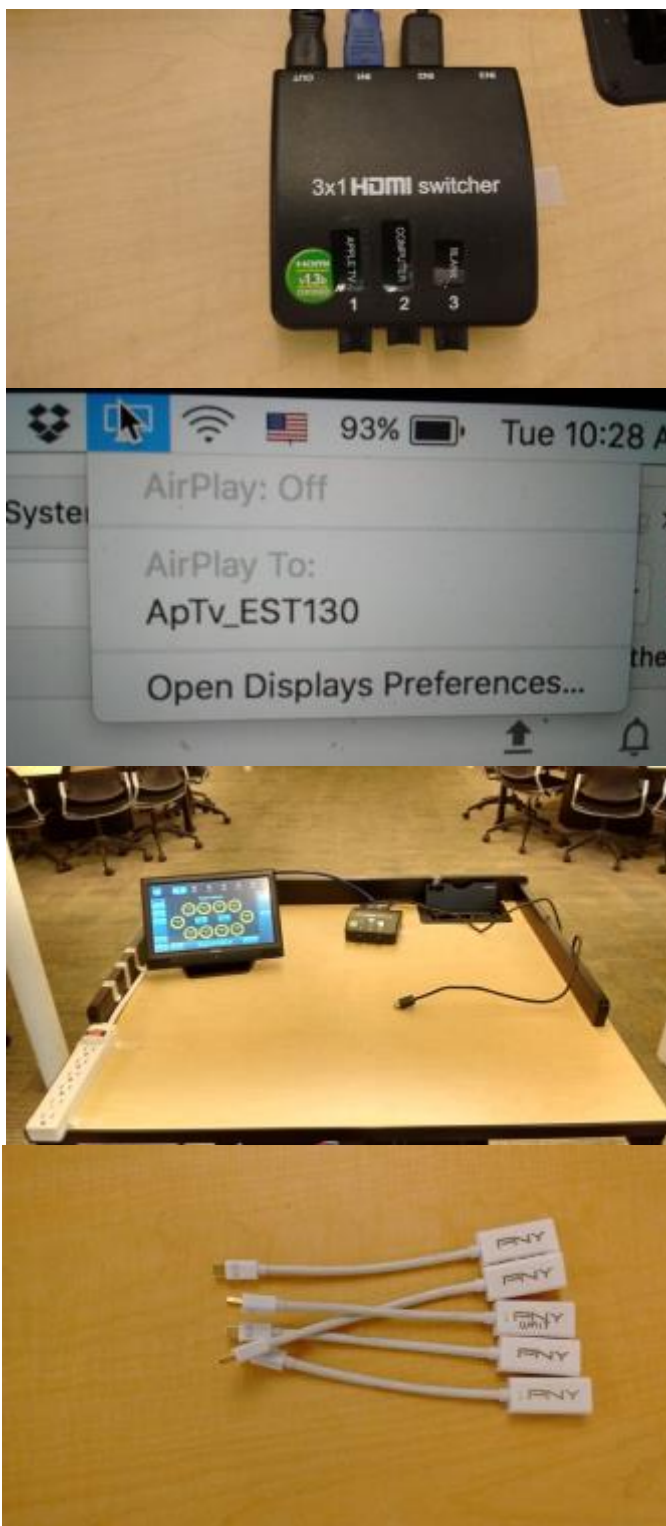

- There are three inputs on the switch box.
- Switch 1 is the Apple TV
- Switch 2 is the primary HDMI input
- Switch three is not connected to an input and can be used as a 'Mute' button for all audio and video

Connecting to AirPlay

- Press switch 1
- Turn on the touch screen system and send the instructor display to all tables (see **Using the Touch Screen Control Panel**)
- Select **ApTv_EST130** and type the code that displays on the screen

Connecting your device

- Press switch 2
- Insert the HDMI cable into your device (this may require an adapter)
- There are Mini DisplayPort adapters for instructor and student use located on the instructor table

Connecting Student Devices:

- Students have three HDMI cables and a microphone at each table
- Students must press the 'Play' button on their cable to use it
- Only one source will work at a time

Using the Touch Screen Control Panel

- Touch anywhere to begin
- Select a table you want to send from (ex. Instructor Table)
- To share with all tables, select "Send to All"
- Share with individual tables by clicking the tables
- Undo your selection by clicking "Reset Tables"
- Students can be assigned to their own screens by selecting a table's input and sending to its own display

- Select 'All Mute' To mute all audio and video
- Turn all audio and video on/off by selecting "All On" or "All Off"
- Use the volume control on the right side of the screen is the master volume control

Audio Controls:

- Set the Volume for each table and instructor microphone
- By default, all are muted
- Select "Close" to return

Display Controls:

- From this screen, you can enable/disable or mute individual displays
- Select "Close" to return

Turn off the System:

- Select "System Off" and then click "Power Down"
