COMMENCEMENT

Friday, May 10  |  Saturday, May 11
PLEASE NOTE: In order to commemorate this milestone occasion, professional photographers will photograph each graduate receiving a diploma. To avoid congestion and to maintain decorum in the ceremony, we ask that family members refrain from approaching the stage to take pictures. Please remain seated until the end of the ceremony. We ask you to respect the importance of Commencement to the University of Maine community and to those individuals being honored on this occasion.

Photos in this program courtesy of University of Maine Division of Marketing and Communications.
Greetings

At Commencement, we celebrate your successful completion of coursework and scholarship, research and creative achievement, community involvement and civic engagement. All your hard work at the University of Maine culminates in this special day, shared with hundreds of members of the UMaine community, and your proud family, friends and colleagues.

Commencement also is a beginning. You now commence a new chapter in your life, building on a strong University of Maine foundation. In your time here, you have learned from world-class scholars, been active in a diverse, inclusive community, and contributed to the greatness of the state’s flagship and public research university. UMaine has helped shape you and you have shaped this university.

The University of Maine will always be a part of your life — who you are and who you will become. It will be exciting to see just where your talents, potential and interests take you. No matter where your journey from this milestone day leads, the University of Maine will be here for you.

Best wishes.

President of the University of Maine and University of Maine at Machias
“The journey of a thousand miles begins with a single step.”

— Lao Tzu
Ceremony Programs

Friday, May 10

Processional
Color Guard
Welcome
National Anthem
Greetings from the President
Recognition of Stage Party
Celebration of Academia
2019 Distinguished Maine Professor
Greetings from the University of Maine System Board of Trustees
Commencement Address
Conferral of Master’s and Certificate of Advanced Studies Degrees
Recognition of Doctoral Candidates
Charge to the Graduates and Closing Remarks
Recessional

A reception will immediately follow the ceremony at Wells Conference Center

Saturday, May 11

Processional
Color Guard
Welcome
National Anthem
Greetings from the President
Recognition of Stage Party
Celebration of Academia
2019 Distinguished Maine Professor
Welcome to New Alumni
Greetings from the University of Maine System Board of Trustees
Conferral of Honorary Degree (Morning)
Commencement Address
Recognition of Valedictorian and Salutatorian
Recognition of Honors College Graduates
Recognition of ROTC Graduates
Conferral of Doctoral Degrees
Conferral of Bachelor’s Degrees
Charge to the Graduates and Closing Remarks
Recessional
Doug Hall

Doug Hall is an inventor, researcher, educator and craft whiskey maker. He is the founder of the Eureka! Ranch, Innovation Engineering Institute and Brain Brew Custom Whisk(e)y. He has been named one of America’s top innovation experts by *Inc.* magazine, *The Wall Street Journal*, Dateline NBC, CNBC, *CIO* magazine and the CBC. His book, *Jump Start Your Business Brain*, was named one of the 100 Best Business Books of All Time by 800-CEO-Read.

Hall writes and teaches from personal experience. He is a hands-on inventor who helps multinational corporations, medium- and small-size companies, governments and nonprofits find, filter and fast-track big ideas. A study found that the typical U.S. household uses an average 18 products or services that Hall has helped invent or reinvent.

A chemical engineer by education, Hall held the title Master Marketing Inventor at Procter & Gamble, shipping a record nine new products in 12 months.

For his pioneering work turning innovation from an art into a reproducible science, Hall was awarded a Doctor of Laws from the University of Prince Edward Island and a Doctor of Engineering from the University of Maine. He received his bachelor’s degree in chemical engineering from UMaine in 1981 — one of four generations of University of Maine graduates in his family.

Unlike others who “keep their methods secret,” Hall is dedicated to enabling innovation through his books, keynote talks, courses and innovation universities for corporations. He partners with UMaine in the Innovation Engineering program.
Bridget Ziegelaar

Bridget Ziegelaar is the operations manager for NASA’s International Space Station (ISS) Research Integration Office. In this role, she is responsible for leading process improvements to maximize ISS research and development, and enabling commercialization of low Earth orbit through the facilitation and support of nongovernment activities utilizing ISS.

Ziegelaar began her career at NASA as a graduate student intern in the Office of External Relations at NASA headquarters in Washington, D.C. After accepting a cooperative education position at the Johnson Space Center in Houston, Texas, she worked in the Mission Operations Directorate Space Station Thermal Systems Group, becoming a full-time NASA employee in 1998.

For three years, Ziegelaar worked as a thermal systems flight controller, supporting flight operations in Mission Control for several space shuttle missions to ISS. In 2001, she moved to the Extravehicular Activity (EVA) Office, where she was designated as the STS-114 EVA flight manager, responsible for all aspects of spacewalk integration.

Following the space shuttle Columbia accident in 2003, Ziegelaar became the lead EVA Office representative on the team chartered to develop critical repair techniques for the space shuttle’s reinforced carbon-carbon (RCC) thermal protection system. She continued to manage spacewalks, leading efforts for five additional ISS assembly missions encompassing 15 spacewalks.

In 2011, Ziegelaar transitioned to the ISS Program Office, where she has held various leadership and supervisory roles, including managing programmatic and technical integration of scientific and technological payloads for operation on ISS. She served as the increment manager for ISS Expedition 54, managing daily real-time programmatic integration of ISS operations in Mission Control before joining the ISS Research Integration Office in 2018.

The Old Town High School graduate received a bachelor’s degree in mechanical engineering from UMaine and a master’s degree in science, technology and public policy from George Washington University.
Florence Reed

Florence Reed of Surry, Maine is a social entrepreneur who has been on a lifelong path to help protect our planet and all creatures, including humans. As a teenager, she volunteered at the local Audubon Society. At the University of New Hampshire, Reed was involved with peace and justice groups, mostly focused on Central America. She also started a campus environmental group. Reed tailored her studies to parallel her activism, with a particular focus on Latin America and saving the world’s rainforests.

Soon after graduating, she joined the United States Peace Corps, and served as an agro-forestry extension agent for two years in Panama. After working for other nonprofit organizations, Reed founded Sustainable Harvest International in 1997.

Sustainable Harvest International has helped 3,000 smallholder farms in Central America convert 26,000 acres of degraded land to regenerative agroecology practices that include 4 million trees. In the face of a looming climate crisis, Reed is now leading the organization toward a scaling-up vision to reverse land degradation on 8 million acres, achieve food sovereignty for 5 million people and draw down 16 million tons of carbon into the soil annually.
Distinguished Maine Professor

Sandra Caron

For the past three decades, Sandra Caron has taught undergraduate and graduate courses, including the popular undergraduate course in human sexuality. She also is a member of the women’s, gender, and sexuality studies faculty.

Caron received UMaine’s 1998 Presidential Outstanding Teaching Award and the 2002 Presidential Public Service Achievement Award. In 2013, she was recognized by the Mabel Wadsworth Center for her lifelong contribution to sexual and reproductive health, and in 1999, she received the Margaret Vaughn Award from Maine Family Planning for her outstanding contribution to sexuality education.

Her research and more than 50 publications have focused on the social-sexual development of young people. She also has served on over 100 thesis and dissertation committees. A licensed counselor, Caron founded three nationally recognized peer education programs: Athletes for Sexual Responsibility, Male Athletes Against Violence and the Greek Peer Educator Program.

She hosts her own website: College Sex Talk. For 20 years, she wrote a weekly column, “Sex Matters,” for The Maine Campus, in which she answered college students’ questions. She also hosted a campus radio show by the same name.

Caron is a member of the American Association of Sexuality Educators, Counselors and Therapists, and the Society for the Scientific Study of Sexuality. For many summers, she has offered a travel course, Human Sexuality in Europe.

Caron has authored several books on sexuality, most recently The Sex Lives of College Students: A Quarter Century of Attitudes and Behaviors, which is based on her 25 years of research. Her most recent book is for children: Birds and Bees and More: How Babies are Made and Families Form.

Caron, a UMaine alumna, received a Ph.D. in human development from Syracuse University.

PAST RECIPIENTS*

2018  Francis Drummond
2017  John Mahon
2016  Paul Roscoe
2015  Bill Davids
2014  Mary Jane Perry
2013  Robert Lad
2012  Joseph Genco
2011  Alfred Bushway
2010  Paul Mayewski
2009  James Acheson
2008  Janice Kristo
2007  John Vetelino
2006  David Townsend
2005  Robert Strong
2004  Eric Landis
2003  Kevin Boyle
2002  James Warhola
2001  Keith Hutchison
2000  Douglas Allen
1999  Brenda Power
1998  Fred Irons
1997  Irving Kornfield
1996  Malcolm Hunter Jr.

Jennifer Tyne

Jennifer Tyne is known by her students and colleagues as a dedicated teacher who has developed new courses, and innovated classes in algebra, precalculus and calculus to benefit both majors and nonmajors. She was instrumental in creating quantitative literacy general education course options in the Department of Mathematics and Statistics, including co-authoring a textbook for one of the courses.

She innovated a live Calculus I class from the traditional lecture/recitation model to active learning in a “flipped classroom” — an interactive format a majority of the students said they preferred. An Introduction to Calculus course developed by Tyne to meet the needs of non-STEM majors in business, and life and social sciences is now a successful model in the department. Recently, in conjunction with the Provost’s Digital Fellows project, she took the lead in the restructuring and aligning all Calculus I classes in the department.

Student evaluations reflect appreciation for Tyne’s enthusiasm, preparation and commitment to fostering academic success in challenging coursework. Undergraduates, including many first-year students, describe her as an excellent teacher who cares about students’ progress. They also note their engagement in the learning environment Tyne creates in her classrooms.

In the department, Tyne spent the past five years as the service course coordinator, integrating the many introductory courses to improve overall performance and student satisfaction, as well as providing teaching support and mentorship to new faculty.

Tyne has been a member of the UMaine community since 2001. She holds a Master of Science in Teaching from UMaine and a Master of Science in Operations Research from the University of North Carolina at Chapel Hill.

PAST RECIPIENTS

2018  Senthil Vel
2017  Harvey Kail
2016  Howard Gray
2015  Kirsten Jacobson
2014  J. Malcolm Shick
2013  Richard Borgman
2012  Mary Rumpho
2011  Douglas Nangle
2010  Judith Pearse
2009  Leonard Kass
2008  Gail Werrbach
2007  Irving Kornfeld
2006  Mary Tyler
2005  A. Patricia Burnes

1995  Barbara Cole
1994  William Glanz
1993  Saundra Gardner
1992  Christina Baker
1991  Kristin Langellier
Jasmine Saros

Jasmine Saros is an internationally recognized researcher in paleoecology and limnology. She has led more than 40 research expeditions to remote areas in the Arctic and in high-alpine ecosystems around the world, all involving student researchers. Her work from Greenland, New Zealand and Argentina to the western United States and Maine has provided a more comprehensive understanding of the biology and chemistry of lakes, past and present.

Using diatom fossil records in lake sediments, Saros reconstructs environmental change over time. Her research, which has received more than $5 million in external funding in the past 12 years and been the focus of nearly 80 publications, informs investigations into the links between lake ecosystems and climate.

Saros has co-led the Kangerlussuaq International Research Network, a 19-member working group on rapid ecosystem responses to Arctic climate shifts, and she serves on the National Science Foundation (NSF) Arctic Portfolio Review Panel. At UMaine, she directed the first-of-its-kind NSF Integrative Graduate Education and Research Traineeship focused explicitly on adaptation to abrupt climate change. The Adaptation to Abrupt Climate Change doctoral training program involved students in Earth sciences, ecology, anthropology, archaeology, international affairs and economics.

In addition, since 2014 Saros has overseen the Sawyer Water Research Laboratory, which provides sample analyses for UMaine faculty and student researchers, and municipal, state and federal agencies.

Last year, Saros was awarded the Outstanding Research Faculty Award in UMaine’s College of Natural Sciences, Forestry, and Agriculture. This year, she also is the recipient of the 2019 Rising Tide Excellence in Faculty Mentoring Award.

Saros joined the UMaine community in 2007. She holds a Ph.D. in Earth and environmental sciences from Lehigh University.

PRESIDENTIAL

Public Service Achievement

Susan McKay

Susan McKay has fundamentally transformed STEM education research at UMaine and, as a result, advanced teaching and learning in schools statewide. In 2001, the professor of physics founded the Maine Center for Research in STEM Education to advance the research and practice of teaching and learning in science, technology, engineering and mathematics — the STEM disciplines.

Over the years, more than $20 million in federal and state funding has supported McKay’s vision and passion for STEM education research to strengthen learning for K–12 students, and to provide professional learning experiences for current and future teachers. RiSE Center initiatives have focused on the recruitment, preparation, ongoing professional learning, and retention of more than 1,000 Maine teachers, and innovated the classrooms of tens of thousands of Maine students.

McKay is committed to building capacity for education research to improve teaching and learning STEM disciplines at UMaine and in Maine public schools. The RiSE Center has grown to include 20 UMaine faculty across multiple disciplines. McKay created and coordinated a research-based Master of Science in Teaching program focused on education research to improve STEM teacher preparation. In addition, a National Science Foundation Teaching Fellowship program through the RiSE Center supports induction and retention of highly qualified STEM teachers in underserved rural Maine schools.

The center also has established innovative partnerships with more than 50 Maine school districts and the state Department of Education.

McKay has been a member of the UMaine community since 1986. She holds a bachelor’s degree in physics from Princeton University, where she also completed a program in teacher preparation. She holds a master’s degree in physics from the University of Maine and a Ph.D. in physics from the Massachusetts Institute of Technology.

“We do not need magic to change the world, we can carry all the power we need inside ourselves already: we have the power to imagine better.”

— J.K. Rowling
Drew Brooks of Lyman, Maine is the 2019 University of Maine valedictorian. He double-majored in microbiology and music, with a minor in molecular biology. He will receive two bachelor’s degrees — one in microbiology, and one in music.

Brooks’ many academic honors include multiple scholarships and Frederick Radke Undergraduate Research Fellowships. A 2018–19 UMaine Center for Undergraduate Research Fellowship helped fund his research, “The role of MyD88 in macrophage recruitment to Candida albicans infection in the zebrafish swim bladder,” in the lab of associate professor of microbiology Robert Wheeler.

Since his sophomore year, Brooks has been a student researcher in the Wheeler Lab studying the fungus Candida albicans, which can cause life-threatening infections in immunocompromised individuals. He has been modeling fungal infections in the swim bladders of zebrafish to gain insights into how fungal pathogenesis occurs in humans, and how to better prevent or treat these infections. In particular, he has been looking at the importance of a protein, myeloid differentiation factor 88 (MyD88), in C. albicans infections, and whether it plays a role in recruiting immune cells that help clear the infection.

“I have thoroughly enjoyed working in the Wheeler Lab over the past three years,” Brooks says, “and I am so grateful for the opportunity to conduct research that may one day help to save someone’s life.”

Beyond the classroom and lab, Brooks has participated in five UMaine music ensembles — University Singers, Black Bear Men’s Chorus, Oratorio Society, Euphony Chamber Choir and Opera Workshop. His vocal training has been primarily geared to operatic vocal performance, which has led to his extensive involvement as a baritone in Opera Workshop productions. He hopes to continue his vocal training when he moves to Boston this summer.

As a sophomore, Brooks was accepted to Tufts University School of Medicine through the Maine Track Early Assurance program. In August, he will start his first year of medical school.
Ana Eliza Souza Cunha

College of Natural Sciences, Forestry, and Agriculture | Honors College

Bachelor of Science in Biology

Ana Eliza Souza Cunha of Orono, Maine is the 2019 University of Maine salutatorian and the Outstanding Graduating Student in the College of Natural Sciences, Forestry, and Agriculture. She majored in biology, with minors in neuroscience and psychology, and a concentration in premedical studies.

Souza Cunha’s numerous honors include the 2018 Dr. Susan J. Hunter Presidential Research Impact Award, the Frank B. and Charles S. Bickford Memorial Prize, and a Servant Heart Scholarship. She will graduate with highest honors for her thesis, “Evaluating a Doppler Radar Monitor for Assessing Honey Bee Colony Health.”

Souza Cunha has been volunteering to assist in UMaine research projects since she was 14 years old. As an undergraduate research intern, she has tagged and followed wood frogs to observe their migration patterns, studied sun-drying techniques on marine worms in oysters, and worked on pesticide-free weed control techniques in sustainable agriculture. Souza Cunha also has studied the effects of diets and peripheral nerves on adipose health and thermogenesis, and how radar could be used to monitor bee health.

As a student ambassador for the School of Biology and Ecology, she mentored peers on UMaine academic and engagement opportunities. Souza Cunha’s own community engagement experiences include volunteering with the UMaine chapter of Partners for World Health and Operation H.E.A.R.T.S. She has worked as a certified nursing assistant and job shadowed at four health care facilities.

“I have traveled across the state of Maine taking part in community service that has allowed me to expand my medical knowledge,” Souza Cunha says. “By traveling and volunteering at different medical institutions such as hospitals — rural and urban, retirement homes and mental health institutes — I have been able to identify future locations where I may see myself one day becoming a physician.”

Following graduation, Souza Cunha will be working in clinical research in Boston, and plans to apply to medical or graduate school.
Vincent Eze

Outstanding Graduating International Student

College of Education and Human Development

Bachelor of Science in Child Development and Family Relations

Vincent Eze of Lagos, Nigeria double-majored in child development and family relations, and in sociology, with a concentration in individual and family studies. He was a forward on the men’s basketball team, and received both Rising Star and Scholar-Athlete awards of the Athletics Department. Eze was a teaching assistant and member of the Student-Athlete Advisory Committee. He also was involved in student groups, including Male Athletes Against Violence, the Student Portfolio Investment Fund (SPIFFY) and the International Student Association. He plans to attend graduate school to study public administration.
Dominic Guimond

*Outstanding Graduating Student*

**Maine Business School**

**Bachelor of Science in Business Administration in Management**

Dominic Guimond of Portland, Maine majored in management, with a concentration in management information systems and a minor in computer science. In 2019, he was named the Outstanding Management Student of the Year in the Maine Business School. He was an IT help desk intern with Tyler Technologies in Yarmouth and an IT tech support intern with Northern Light Health in Bangor. Guimond also was involved in research, including a study of the United States and Canadian film industries. He was vice president of the UMaine Super Smash Bros. Melee Club, and participated in other student organizations, including CyberSecurity, Fencing and Game Development. Following graduation, Guimond will work at Tyler Technologies, focusing on disaster recovery services.

Shayla Kleisinger

*Outstanding Graduating International Student*

**College of Engineering**

**Bachelor of Science in Biomedical Engineering**

Shayla Kleisinger of Winnipeg, Canada was a biomedical engineering major with a minor in nanotechnology. As a member of the swimming and diving team, her primary events were freestyle and individual medley. In 2016–17, she was named to the America East All-Academic Team. Kleisinger is a member of the All Maine Women honor society, vice president of the UMaine chapter of Active Minds, and a peer tutor and a teacher in the Black Bear Swim School. She also was involved in research on campus, working in the Howell Biointerface and Biomimetics laboratory, and participating in an interdisciplinary project through the Senator George J. Mitchell Center for Sustainability Solutions. Kleisinger was a mentor in the Maine EPSCoR High School Internship Program. Her capstone research project focused on microsatellite technology used in NASA’s CubeSat Initiative that would be capable of sustaining the growth of microgreen plants in space. She plans to pursue a job in biomedical technology and attend graduate school.
Outstanding Graduating Students

Natasca La Verde

Outstanding Graduating Student

Division of Lifelong Learning

Bachelor of University Studies

Natasca La Verde of Belfast, Maine was a university studies major whose interdisciplinary program predominantly focused on history, social sciences, psychology, communication and cultural diversity. She is a member of Alpha Sigma Lambda honor society. La Verde’s research focused on the experiences and journeys of individuals who historically created social, political and civil resistance. She has written about conscientious objection, and about resistance during the Nazi regime, the Penobscot Nation, and Rachel Carson and the environmental movement. La Verde is a parent and a staff member at UMaine’s Hutchinson Center. She also is an active community volunteer. She has taught Italian to elementary schoolchildren, worked with teenagers at a behavioral institution, participated in the Belfast Creative Coalition and assisted elders. She plans to continue her research on resistance movements throughout history.

Eben Lenfest

Outstanding Graduating Student

College of Engineering

Bachelor of Science in Mechanical Engineering

Eben Lenfest of Smithfield, Maine majored in mechanical engineering, with minors in robotics and ocean and marine engineering. He is an Eagle Scout and a recipient of the E. James and Eileen Ferland Engineering Excellence Scholarship. As a student research assistant at UMaine’s Advanced Structures and Composites Center, Lenfest worked on a project to test the feasibility and effectiveness of applying a new NASA-developed structural damping technology to the university’s VolturnUS floating offshore wind turbine platform. He also interned at NASA’s Marshall Space Flight Center to learn more about the mechanics of the technology. Most recently, Lenfest worked with a doctoral student to test a scale-model wind turbine with active pitch control to better simulate real-world performance. Lenfest played French horn in the UMaine Symphonic Band and the University Orchestra, and was involved in Black Bear Robotics, and the SCUBA and Maine Outing clubs. As a UMaine graduate student in mechanical engineering, he will continue his work in developing active pitch controls and will spend his summers at the U.S. Department of Energy National Wind Technology Center in Colorado.
Lydia Murray

Outstanding Graduating International Student

College of Natural Sciences, Forestry, and Agriculture

Bachelor of Science in Nursing

Lydia Murray of Sault Ste. Marie, Canada majored in nursing and was a forward on the women’s ice hockey team. Among her honors is a 2016–17 Team Maine award for the highest GPA. In her four years in the nursing program, Murray did numerous clinical rotations, caring for a wide range of patients at Brewer Center for Health and Rehabilitation, St. Joseph Hospital; Surgical/Orthopedic Unit and Medical/Neuroscience Unit, Northern Light Eastern Maine Medical Center; Surgical and Pediatrics at EMMC; and community clinicals at Orono High School, Orono Middle School and Asa C. Adams School. Her senior practicum was with the EMMC Obstetrics Unit. On campus, Murray was involved in the Student-Athlete Advisory Committee and Athletes for Sexual Responsibility. She has discovered a passion for obstetrics and women’s health, and plans to pursue a career as a registered nurse.

Grace Pouliot

Outstanding Graduating Student

College of Education and Human Development | Honors College

Bachelor of Science in Elementary Education

Grace Pouliot of South Berwick, Maine was an elementary education major, with concentrations in mathematics and English language learning. The 2015 Mitchell Scholar received this year’s Maine Campus Compact Heart and Soul Student Award, and is a member of All Maine Women honor society. In the Honors College, she was a project leader in the Servant Heart Research Collaborative, working on projects to support the Child Rescue Center in Bo, Sierra Leone. Her honors thesis is “The Attachment Theory: A Content Analysis of the Objectives of the Servant Heart Training Modules.” Pouliot also attended Tembusu College at the National University of Singapore, co-directed the university’s chapter of Camp Kesem and participated in UMaine Active Minds. She plans to pursue a career as a middle school teacher, with concentrations in mathematics and English language learning. Pouliot also hopes to earn a master’s degree in educational counseling.
Outstanding Graduating Students

Ilija Stojiljkovic

*Outstanding Graduating International Student*

**Maine Business School**

**Bachelor of Science in Business Administration in Management**

Ilija Stojiljkovic of Niš, Serbia was a management major and forward on the men’s basketball team. His honors include Scholar-Athlete awards, and being named to the 2019 America East All-Academic Team, and the Eastern College Athletic Conference President’s Honor Roll and National Association of Basketball Coaches Honors Court, both in 2018. In his senior season, he was team captain. Stojiljkovic also was a member of Male Athletes Against Violence and the Student-Athlete Advisory Committee on campus, and served as a peer tutor and mentor. He plans to pursue a master’s degree and play professional basketball.

Thilee Yost

*Outstanding Graduating Student*

**College of Liberal Arts and Sciences | Honors College**

**Bachelor of Arts in Political Science | Bachelor of Arts in Philosophy**

Thilee Yost of Damariscotta, Maine was a double-major in political science and philosophy, with minors in legal studies, and political philosophy and ethics. Her numerous honors include the John Mitchell Nickerson University of Maine Memorial Scholarship, a UMaine Center for Undergraduate Research Fellowship and a U.S.-Singapore Exchange Scholarship. Her honors thesis is “Asian American Political Incorporation: A Case Study of Hmong Americans in St. Paul.” At a National Collegiate Honors Council conference, Yost gave a well-received presentation, “Dialogues and Diatribes: An Eloquent Discussion for a More Civilized Age,” focused on the Honors College current events course, in which she was a teaching assistant. She was a resident assistant for three years, and had leadership roles in UMaine’s Pre-Law Society and the Mock Trial Team. Yost is a member of All Maine Women honor society. She plans to pursue a joint degree program to earn a law degree and a master’s degree in public policy.
"Do not follow where the path may lead.  
Go, instead,  
where there is no path  
and leave a trail."

— Ralph Waldo Emerson
Doctor of Education

David Leon Fournier, Educational Leadership
ADVISOR: Richard Ackerman, Professor of Educational Leadership
THESIS: An Exploration of Technology Leadership in Three Maine Public School Districts

Karen Greenwood Smith, Individualized Program (Special Education and Curriculum and Instruction)

THESIS: Feeding the Empire: Grain, Warfare, and the Persistence of the British Atlantic Economy, 1765–1815

Lisa Deborah Carr, Ecology and Environmental Sciences
ADVISOR: Darren Ranco, Associate Professor of Anthropology
THESIS: Including TEK into Post-Secondary Education to Enhance Persistence in Science for Native Youth

Dana Elizabeth Carver-Bialer, Communication
ADVISOR: Nathan Stormer, Professor of Communication and Journalism
THESIS: Navigating Agency: Embodied Politics in the Feminist Classroom

Thamrongsak Cheewawisuttichai, Chemistry
ADVISOR: Matthew Brichacek, Assistant Professor of Chemistry
THESIS: Chemical Investigation of Poly(ADP-ribose) Using Top-Down and Bottom-Up Chemical Approaches

Elizabeth Carroll Coffey, Biological Sciences
ADVISOR: Clarissa Henry, Associate Professor of Biological Sciences
THESIS: Muscle Degeneration in a Zebrafish Model of Lysosomal-Related Myopathy

LeAnn Marie Conlon, Oceanography
ADVISOR: Huijie Xue, Professor of Marine Sciences
THESIS: Circulation, Cross-Shelf Exchange, and Blue Mussel (Mytilus edulis) Population Connectivity in a Complex, Tidally Driven System

Meaghan Conway, Ecology and Environmental Sciences
ADVISOR: Brian Olsen, Associate Professor of Biology and Ecology
THESIS: Niche Evolution Along a Gradient of Ecological Specialization

Jennifer Ann Crittenden, Interdisciplinary Studies
ADVISOR: Sandra Butler, Professor of Social Work
THESIS: Juggling Multiple Roles: An Examination of Role Conflict and Its Relationship to Older Adult Volunteer Satisfaction and Retention

Nayereh Dadoo, Chemistry
ADVISOR: William Gramlich, Assistant Professor of Chemistry
THESIS: Chemically Cross-Linked Polysaccharide-Based Hydrogels Via Thiol-Norbornene Reaction as Sustainable Biomaterials

Helen J. Day, Psychology
ADVISOR: Cynthia Erdley Gardella, Professor of Psychology
THESIS: Gender Differences in Co-Rumination Processes in the Friendships of Late Adolescents: Relations to Depression Vulnerability

Sarah Domareki, History
ADVISORS: Jacques Ferland, Associate Professor of History; and Scott See, Libra Professor Emeritus
THESIS: The Canadian Question and the Woman Question: History, Myth, and Identity in Canadian Women’s Autobiography

Brian Elizabeth Du Clos, Ecology and Environmental Sciences
ADVISORS: Cynthia Loftin, Associate Professor; and Francis Drummond, Professor of Insect Ecology/Entomology
THESIS: Landscape Pattern and Wild Bee Communities in Maine

Jeanne Kathryn DuShane, Biochemistry and Molecular Biology
ADVISOR: Melissa Maginnis, Assistant Professor of Microbiology
THESIS: Cellular and Molecular Mechanisms Driving JC polyomavirus Infection

Sarah Adele Ebel, Anthropology and Environmental Policy
ADVISOR: Christine Beitl, Assistant Professor of Anthropology
THESIS: In Hot Water: Collective Action and Adaptation of Small-Scale Fisheries in Chile’s Lakes Region

Susan Pauline Elias, Earth and Climate Sciences
ADVISOR: Kirk Maasch, Professor of Earth and Climate Sciences
THESIS: Blacklegged Tick (Ixodes scapularis) Distribution in Maine, USA, as Related to Climate Change, White-Tailed Deer, and the Landscape
Doctoral Degree Candidates

Eliot Fearey, Psychology
ADVISOR: Rebecca Schwartz-Mette, Assistant Professor of Psychology
THESIS: Cognitive Inhibition and Interpersonal Emotion Regulation

Roger Eastman Feeley, Physics
ADVISOR: Nuri Emanetoglu, Associate Professor of Electrical and Computer Engineering
THESIS: Low Temperature AlN Thin Film Growth on Nitrided C-Plane Sapphire Substrates

Rachel Anne Fowler, Ecology and Environmental Sciences
ADVISOR: Jasmine Saros, Professor of Paleoenecology and Biological Sciences
THESIS: Assessing the Mechanisms and Implications of Altered Carbon Cycling in Arctic and Boreal Lakes

Catherine Frederick, Marine Bioresources
ADVISOR: Ian Bricknell, Professor of Aquaculture
THESIS: The Infection Dynamics of Sea Lice on Atlantic Salmon (Salmo salar) in Cobscook Bay, Maine, USA

Dulcinea Groff, Ecology and Environmental Sciences
ADVISOR: Jacquelyn Gill, Assistant Professor of Terrestrial Paleoenecology and Plant Ecology
THESIS: Modern and Paleoenecological Perspectives on a Terrestrial-Marine Linkage in the Falkland Islands

Amalia Marina Harrington, Marine Biology
ADVISOR: Heather Hamlin, Associate Professor of Marine Biology
THESIS: Physiological Effects of Climate Change on the American Lobster, Homarus americanus

Kathy Jeanne Harris-Smedberg, Education
ADVISOR: Catharine Biddle, Assistant Professor of Educational Leadership
THESIS: Shocks to the Systems: The Micropolitics of Communities in Economic Shock When Determining the Outcome of Local Education

Matthew Christopher Hartmann, Biomedical Sciences
ADVISOR: Alan Rosenwasser, Professor of Psychology
THESIS: Characterization of Ethanol-Related Phenotypic Differences Between C57BL/6J and C57BL/6NJ Substrains: Role of CYFIP2

Seyyed Mohammad Hashemi Najafi, Forest Resources
ADVISORS: Mehdi Tajvidi, Assistant Professor of Renewable Nanomaterials; and Douglas Bousfield, Professor of Chemical Engineering
THESIS: The Influence of Mechanical Properties of Paper Coating on the Crack at the Fold Problem

Jamie A. Haverkamp, Anthropology and Environmental Policy
ADVISORS: Cynthia Isenhour, Assistant Professor of Anthropology; and Darren Ranco, Associate Professor of Anthropology
THESIS: Understanding Climate Resilient Development and Discourse

Christopher John Robert Healy, Education (Literacy Education)
ADVISORS: Victoria Bennett-Armistead, Associate Professor of Literacy; and Richard Kent, Professor of Literacy Education
THESIS: “There isn’t anything that guy can’t teach about cars”: The Meaning of Effective CTE Instruction

Amy Elizabeth Hofmann, Interdisciplinary Studies
ADVISOR: Robert Causey, Associate Professor of Animal and Veterinary Sciences
THESIS: An Experimental Design for Insurance Approved Equine-Assisted Therapies for Veterans with Post-Traumatic Stress Disorder

Matthew A. Humphreys, Psychology
ADVISOR: Jordan LaBouff, Assistant Professor of Psychology and Honors
THESIS: How Scarcity and Humility Predict Prosocial Giving

Xiaojie Ji, Biomedical Sciences
ADVISOR: Patsy Nishina, Professor of Biomedical Sciences
THESIS: The Role of Lyst in Retinal Pigment Epithelium

Yang Kong, Biomedical Sciences
ADVISOR: Patsy Nishina, Professor of Biomedical Sciences
THESIS: Genetic Modification of Inherited Retinopathy in Mice

Elena Korotkikh, Earth and Climate Sciences
ADVISOR: Paul Mayewski, Director and Professor, Climate Change Institute
THESIS: 2,000 Year Detailed Climate Reconstruction from Spresso Ice Core

Siglinde Langholz Villarreal, Interdisciplinary Studies
ADVISOR: Owen Smith, Director of Intermedia MFA Program
THESIS: Transdisciplinary Creative Ecologies in Contemporary Art Within Emergent Processes
Anne Marie Lausier, Civil Engineering
ADVISOR: Shaleen Jain, Associate Professor of Civil and Environmental Engineering
THESIS: Perspectives on Water Resources Stewardship, Policy, and Risk

Joshua Arthur Lewis, Spatial Information Science and Engineering
ADVISOR: Max Egenhofer, Professor of Spatial Infomatics
THESIS: An Automated Qualitative Representation of Spatial Science in R2

Akbar Mahdavi Shakib, Chemistry
ADVISORS: Brian Frederick, Associate Professor of Chemistry; and Thomas Schwartz, Assistant Professor of Chemical Engineering
THESIS: Mechanistic Studies of Reducible Metal Oxides as Hydrodeoxygenation Catalysts

Hakeem Salih Majeed, Civil Engineering
ADVISOR: William Davids, Professor of Civil and Environmental Engineering
THESIS: Development of Finite Element Techniques to Simulate Concrete-Filled Fiber-Reinforced Polymer Tube Structures

George Alphonse Maynard, Wildlife Ecology
ADVISOR: Joseph Zydlewski, Professor of Wildlife Ecology
THESIS: Assessing Anadromous Fish Migrations and Habitat Connectivity Following a Major Restoration Effort in the Penobscot River, Maine

Cody Peter Miller, History
ADVISORS: Richard Judd, Professor of History; and Micah Pawling, Assistant Professor of Native American Studies and History
THESIS: “When We Develop an Agriculture That Fits This Land”: Soil, Community, and Conservation in Twentieth-Century Appalachia

Barbara M. Moody, Education
ADVISOR: Ian Mette, Assistant Professor of Educational Leadership

Aaron David Nicholas, Chemistry
ADVISORS: Scott Collins, Professor of Chemistry; Robert Pike, Professor of Chemistry, William and Mary College; and Howard Patterson, Professor of Chemistry
THESIS: Optical Memory Behavior, Metallophilic Luminescence, and Chemical Sensing Ability of Inorganic and Organometallic Complexes: Development of Optoelectronic Materials

Bryan Picciotto, Communication
ADVISOR: Nathan Stormer, Professor of Communication and Journalism
THESIS: Movement as Aesthetic Rhetoric: A Rhetorical Ethnography of Hiking in Maine

Emilia Purington, Chemical Engineering
ADVISORS: Douglas Bousfield, Professor of Chemical Engineering; and William Gramlich, Assistant Professor of Chemistry
THESIS: Coasting Component Migration in Paper Coatings

Elisa Elisabeth AndrÉÀ Sance, History
ADVISOR: Jacques Ferland, Associate Professor of History

Valerie C. Sauda, Interdisciplinary Studies
ADVISOR: Patricia Poirier, Associate Professor in Nursing
THESIS: The Inclusion of Science Courses in Nursing Curricula Across U.S. Schools of Nursing

Ambreen Ahmed Sayed, Biomedical Sciences
ADVISOR: Gregory Cox, Associate Professor in Biomedical Sciences
THESIS: Characterization and Functional Rescue of Congenital Muscular Dystrophy with Megaconial Myopathy in a Mouse Model of the Disease

Charlotte Terry Carrigan Quigley, Marine Bioresources
ADVISOR: Susan Brawley, Professor of Plant Biology
THESIS: Thermal and Microbial Effects on Brown Macroalgae: Heat Acclimation and the Biodiversity of the Microbiome

Most Outstanding Doctoral Student
Doctoral Degree Candidates

Brian William Rolek, Wildlife Ecology
**ADVISORS:** Cynthia Loftin, Associate Professor of Wildlife Ecology; and Daniel Harrison, Professor of Wildlife Ecology
**THESIS:** Effects from Forest Management on Avian Spruce-Fir Communities and Habitat

Pamela Elena Ruiz Martinez, Chemistry
**ADVISORS:** Brian Frederick, Associate Professor of Chemistry; and William DeSisto, Professor of Chemical Engineering
**THESIS:** Thermochemical Conversion of Guaiacol Over Unsupported Tungsten Oxide and Nickel Supported Catalysts

Jessica Scheick, Earth and Climate Sciences
**ADVISOR:** Ellyn Enderlin, Research Assistant Professor, Climate Change Institute and School of Earth and Climate Sciences
**THESIS:** Remote Sensing of Icebergs in Greenland’s Fjords and Coastal Waters

Allison K. Scherer, Microbiology
**ADVISOR:** Robert Wheeler, Associate Professor of Microbiology
**THESIS:** Host Mediated Mechanisms of Fungal Cell Spread in a Transparent Zebrafish Infection Model

Won Joon Song, Earth and Climate Sciences
**ADVISORS:** Scott Johnson, Professor of Structural Geology and Tectonics; and Christopher Gerbi, Associate Professor of Earth Science
**THESIS:** Fault-Adjacent Damage at the Base of the Seismogenic Zone and Seismic Anisotropy of Fold Structures

John Caleb Speirs, Physics
**ADVISOR:** MacKenzie Stetzer, Assistant Professor of Physics
**THESIS:** Probing Student Reasoning Skills: New Methodologies

April May Spencer, Education
**ADVISOR:** Janet Spector, Associate Professor Emerita of Special Education
**THESIS:** Teacher Judgment Accuracy in the Domain of Spelling

Michael Paul Torre, Ecology and Environmental Sciences
**ADVISOR:** Yong Chen, Professor for Fisheries Population Dynamics
**THESIS:** Linking Environmental Variability to the Biogeography of Placopecten magellanicus in the Northeast U.S. and the Development of Management Tools to Refine Survey Design and Improve Fishery Resilience

Panagiotis Tsakiroglou, Food Science and Human Nutrition
**ADVISOR:** Dorothy Klimis-Zacas, Professor of Clinical Nutrition
**THESIS:** The Effects of Wild Blueberry Bioactives on Endothelial Cell Migration and Angiogenesis: An In Vitro Mechanistic, Genomic and Proteomic Approach

Daniel Harold Varney, Chemical Engineering
**ADVISOR:** Douglas Bousfield, Professor of Chemical Engineering
**THESIS:** Prediction of Paper Coating Mechanical Behavior Based on Particles-Scale Models

Kathryn A. Warner, Ecology and Environmental Sciences
**ADVISORS:** Jasmine Saros, Professor of Paleoecology; and Mario Teisl, Professor of Resource Economics and Policy
**THESIS:** Ecological and Economic Implications of Abrupt Climate Change on Lake Ecosystems

Zachary T. Wood, Ecology and Environmental Sciences
**ADVISOR:** Michael Kinnison, Professor of Evolutionary Applications
**THESIS:** Cascading Community Consequences of Fish Adaptation

Fuyu Xu, Spatial Information Science and Engineering
**ADVISOR:** Mary Kate Beard-Tisdale, Professor of Spatial Information Science and Engineering
**THESIS:** Development and Applications of Similarity Measures of Spatial-Temporal Event Sequences and Spatial Setting
