

# ANDRE KHALIL, PhD

## CURRICULUM VITAE

---

### PERSONAL INFORMATION

---

**ADDRESS:** Department of Chemical & Biomedical Engineering  
357 Ferland Engineering Education and Design Center  
University of Maine, Orono, ME 04469 USA

**EMAIL:** andre.khalil@maine.edu

**BORN:** Rimouski, QC, Canada

---

### EDUCATION AND TRAINING

---

2005 Post-Doctoral Fellow, The Jackson Laboratory, Bar Harbor, ME, USA  
Field of Study: *Computational Biomedicine*

2004 Ph.D. in Mathematics and Astrophysics, Université Laval, QC, Canada  
Thesis: "*Analyse structurelle de l'hydrogène neutre dans la Voie Lactée*"  
English: "*Structural Analysis of Atomic Hydrogen in the Milky Way*"  
Advisors: Prof. Gilles Joncas (U. Laval) & Prof. Fahima Nekka (U. Montréal)

1999 M.S. in Mathematics, Concordia University, Montréal, QC, Canada  
Thesis: "*Exploration of the Fractal Dimension*"  
Advisor: Prof. Pawel Gora

1996 B.S. in Mathematics, Concordia University, Montréal, QC, Canada

---

### PERSONAL STATEMENT

---

At the University of Maine, I am the founding director of the [CompuMAINE Lab](#) (Computational Modeling, Analysis of Images and Numerical Experiments). I have co-authored over **100 publications**. My work is published in journals such as *Astrophysical Journal*, *Frontiers in Physiology*, the *PLoS* journals, and the *Proceedings of the National Academy of Sciences*. Applications include breast cancer (which has led to three issued patents), cell nucleus architecture, regenerative medicine, muscle cell morphogenesis, neuroscience, pure mathematics, and astrophysics. I have obtained **more than 40 grants/contracts totaling over \$8M** (as PI, co-PI, or senior personnel), while developing or restructuring several undergraduate and graduate courses in Mathematics, Statistics, Chemical Engineering, and Biomedical Engineering. I have trained (or am currently training) **30 thesis students** (8 PhDs + 16 Masters + 6 Honors). In 2022 I received a **Faculty Mentor Impact Award** at the University of Maine.

**Breast Cancer Research:** I co-authored numerous peer-reviewed publications, advised 11 students working on their theses, and secured **over one million dollars in funding specifically for the breast cancer project**: from the University of Maine, the Maine Cancer Foundation, the National Cancer Institute, the Maine Technology Institute, the National Institute of General Medical Sciences, the National Science Foundation, and various accelerator programs. Dr. Kendra Batchelder, who recently finished her PhD under my supervision, and I are co-inventors on three issued patents related to this work (two in the U.S. and one in Europe). She and I are co-founders of a startup company called [WAVED Medical LLC](#).

---

### POSITIONS

---

2022-present Co-Founder, WAVED Medical LLC, Orono, ME

2020-present Professor of Chemical & Biomedical Engineering, University of Maine, Orono, ME

2018-2020 Associate Professor of Biomedical Engineering, University of Maine, Orono, ME

2011-2017 Associate Professor of Mathematics, University of Maine, Orono, ME

2005-2011	Assistant Professor of Mathematics, University of Maine, Orono, ME
2019-present	Adjunct Graduate Faculty, Boise State University, Boise, ID
2014-2016	Allied Scientist, Eastern Maine Medical Center, Bangor, ME
2011-present	Cooperating Professor of Computing and Information Science, UMaine
2010-2017	Collaborator, Chromatin and Genome Research Group, Laboratoire Joliot-Curie, École Normale Supérieure de Lyon, France
2009-present	Cooperating Professor of Physics, Department of Physics & Astronomy, UMaine
2008	Visiting Researcher, Department of Applied Physical Chemistry, University of Heidelberg, Heidelberg, Germany
2008	Guest Lecturer, Interdisciplinary Center for Scientific Computing, University of Heidelberg, Heidelberg, Germany
2007, 8, 9, 2023	Visiting Researcher, Centre National de Recherche Scientifique (CNRS), Laboratoire Joliot-Curie, École Normale Supérieure de Lyon, France
2007-present	Mathematics of Information Technology and Complex systems (MITACS) College of Reviewers Faculty Member
2006-present	Graduate School of Biomedical Sciences and Engineering Faculty, UMaine
2006-2008	Adjunct Professor, Department of Physics, Université Laval, Québec, Canada
2005-present	Adjunct Member of the Scientific Staff, The Jackson Laboratory, Bar Harbor, ME
2005-present	Faculty Member of the Functional Genomics Program, UMaine
2005-2015	Faculty Member of the Institute for Molecular Biophysics (IMB), UMaine
2001-2004	Physics Graduate Research Assistant, Université Laval, Québec, Canada
2000-2001	Engineering-Math Adjunct Faculty, Université du Québec a Rimouski, Canada
1999-2000	Geographical Information Systems Faculty, Collège de Rimouski, Canada
1996-1999	Graduate Research Assistant, Concordia University, Montréal, Canada
1992-1996	Music salesman, Le Sillon, Rimouski, QC, Canada

---

## PATENTS

---

- 1) E.U. Patent 2,988,659 B1 *Improved Methods of Tissue Classification*. Issued: 2022/10/26
- 2) U.S. Patent 10,769,790 B2 *Methods of Cancer Detection*. Issued: 2020/09/08
- 3) U.S. Patent 10,467,755 B2 *Methods of Cancer Detection*. Issued: 2019/11/05
- 4) U.S. Provisional Patent 63/603,555 *Systems and Methods for Characterizing Fiber Compositions*. Filed: 2023/11/29

---

## PUBLICATIONS

---

### Refereed Journal Articles and Conference Proceedings

- 1) Blaszkiewicz, M, Johnson, CP, Willows, JW, Gardner, ML, Taplin, DR, Alshahal, Z, Freitas, MA, **Khalil, A**, and Townsend, KL 202? *The early transition to cold-induced browning in mouse subcutaneous white adipose tissue (scWAT) involves proteins related to nerve remodeling, cytoskeleton, mitochondria, and immune cells*. Journal of Molecular Cell Biology, submitted.
- 2) Johnson, CP, Hart, A, Jarvis, KF, Latario, SG, Shrestha, S, Leclerc, N, **Khalil, A**, Kelley, JB 202? *The G-alpha Gpa1 directs septin localization in the mating projection of Saccharomyces cerevisiae through its Ubiquitination Domain and Endocytic Machinery*. Journal of Cell Biology, submitted.
- 3) Hamilton, J, Olzinski, M, Batchelder, K, Brooks, P, Tilbury, K, **Khalil, A** 2024 *Multiscale Computational Analysis of Patient-Matched Multi-Modal Imaging of Breast Tissue Microenvironment*. Cancer Research, P03-07-01. (to appear in Feb. 2024.)
- 4) Hamilton, J, Breggia, A, Fitzgerald, TL, Jones, MA, Brooks, PC, Tilbury, KB, **Khalil, A** 2022 *Multiscale anisotropy analysis of second-harmonic generation collagen imaging of human pancreatic cancer*. Frontiers in Oncology, 12:991850. doi: 10.3389/fonc.2022.991850
- 5) Liu, J, Enderlin, E, Marshall, HP, **Khalil, A** 2022 *Synchronous retreat of southeast Greenland's*

- peripheral glaciers*. Geophysical Research Letters 49 (13), e2022GL097756. doi: 10.1029/2022GL097756.
- 6) Juybari, J, **Khalil, A** 2022 *Elimination of image saturation effects on multifractal statistics using the 2D WTMM method*. Frontiers in Physiology. 13:921869. doi: 10.3389/fphys.2022.921869.
  - 7) Willows, JW, Blaszkiewicz, M, Lamore, A, Borer, S, Dubois, AL, Garner, E, Breeding, WP, Tilbury, KB, **Khalil, A**, Townsend, K 2021 *Visualization and analysis of whole depot adipose tissue neural innervation*. iScience. 24(10), 103127. doi: 10.1016/j.isci.2021.103127
  - 8) Castro, IJ, Toner, BC, Xie, SQ, Swingland, J, Hodges, A, Tabrizi, SJ, Turkheimer, F, Pombo, A, **Khalil, A** 2021 *Altered nuclear architecture in blood cells from Huntington's disease patients*. Neurological Sciences. 43 (1) 379-385. doi: 10.1007/s10072-021-05289-w
  - 9) Tilbury, K, Han, X, Brooks, P, **Khalil, A** 2021. *Multiscale Anisotropy Analysis of Second-Harmonic Generation Collagen Imaging of Mouse Skin*. Journal of Biomedical Optics. 26(6), 065002. doi: 10.1117/1.JBO.26.6.065022
  - 10) Gerasimova-Chechkina, E, Toner, BC, Batchelder, KA, White, B, Freynd, G, Antipev, I, Arneodo, A, **Khalil, A** 2021. *Loss of mammographic tissue homeostasis in invasive lobular and ductal breast carcinomas vs. benign lesions*. Frontiers in Physiology – Fractal Physiology. 12, 660883. doi: 10.3389/fphys.2021.660883
  - 11) Liu, J, Enderlin, EM, Marshall, HP, **Khalil, A** 2021. *Automated detection of marine glacier calving fronts using the 2D Wavelet Transform Modulus Maxima (WTMM) segmentation method*. IEEE Transactions on Geoscience and Remote Sensing. 59(11), 9047-9057. DOI: 10.1109/TGRS.2021.3053235
  - 12) Toner, B, **Khalil, A** 2020. *Exploratory computational longitudinal analysis of mammographic microenvironment disruption preceding breast tumorigenesis*. Cancer Research, 80 (4 supplement), P6-06-04.
  - 13) Robitaille, JF, Abdeldayem, A, Joncour, I, Moraux, E, Motte, F, Lesaffre, P, **Khalil, A** 2020. *Statistical model for filamentary structures of molecular clouds. The modified multiplicative random cascade model and its multifractal nature*. Astronomy & Astrophysics. 641, A138 (11 pages).
  - 14) Harling, M, Juybari, J, Johnson, J, Townsend, K, **Khalil, A**, Tilbury, K. 2020. Wavelet-based characterization of the spatial relationship of nerve and collagen in neuropathic adipose tissue. In *Three-Dimensional and Multidimensional Microscopy: Image Acquisition and Processing XXVII*. 112450R (10 pages). <https://doi.org/10.1117/12.2546918>
  - 15) Liu, J, Enderlin, EM, **Khalil, A**, 2019. *Unsupervised glacier terminus detection in satellite imagery using the 2D Wavelet Transform Modulus Maxima (WTMM) segmentation method*. GeoComputation 2019, Queenstown, New Zealand (8 pages). <https://doi.org/10.17608/k6.auckland.9869606.v1>
  - 16) Breeding, PW, M Blaszkiewicz, K Townsend, **A Khalil**, and KB Tilbury 2019 *Exploratory investigation of the spatial relationships of collagen and nerves in subcutaneous white adipose tissue (scWAT) using 2-photon microscopy*. ---

## HONORS

---

→ 2022: I received the **Faculty Mentor Impact Award** at the University of Maine.

---

## ACHIEVEMENTS

---

- 2023: Our breast cancer research was highlighted in the [State of AI in Maine Digital Report](#).  
 → 2022: Winners of Maine Venture Fund [College Tier Maine Startup Challenge](#) with Kendra Batchelder.  
 → 2022: Co-founded [WAVED Medical LLC](#) with Kendra Batchelder.  
 → 2022: PI and technical lead for the [National Science Foundation's I-Corps award](#).  
 → 2022 and 2023: Completed the University of Maine's MIRTA Accelerator program:  
     → [Team WAVED](#) (2022)  
     → [Team SeekInsight](#) (2023)  
 → 2022: Our commercialization activities were mentioned in [MaineBiz](#).  
 → 2017: Our breast cancer research was highlighted in an article by Lindsay Tice from the Sun Journal in Lewiston, Maine, on [cutting-edge research being done right here in Maine](#), describing "10 of the most promising projects in Maine".  
 → 2016: Corresponding author of a paper (Plourde et al. [Computers in Biology and Medicine](#) 2016) that was given the **honors status**. Out of ~1,500 papers submitted to this journal in 2016, ~300 were accepted for publication, and amongst the top-ranked 80 out of the 300, ours was [listed as meritorious and ranked 38](#).  
 → 2013: Co-author of paper (Gerasimova et al. [Europhysics Letters](#) 2013 104 (6), 68001) that was highlighted by the [Europhysics News](#)  
 → 2012: Co-author of a paper (Goody et al. [PLoS Biology](#) 2012 10 (10), e1001409) that was recommended by [Faculty of 1000](#), highlighted by a [PLoS Biology Synopsis](#), and highlighted in a [PLoS Biologue](#).  
 → 2008: Co-author of a paper (Snow et al. [PLoS Genet](#) 2008 4 (10) :e1000219) that was recommended by [Faculty of 1000](#): *"I like this paper because it is a **tour de force of quantitative analysis** of cell behaviors in vivo. It represents perfectly the direction in which morphogenesis studies need to go. The authors combine **rigorous** application of traditional methods for quantifying cell behavior and also introduce a **very promising new mathematical approach** that allows rapid and large-scale comparisons of cell shapes (for example, Isotropy)."*

## GRANTS, CONTRACTS, AND FUNDING

---

Title	Funding Agency	Role	Amount Awarded	Start Date	Duration (months)
Image-based risk assessment to identify women at high-risk for breast cancer	National Cancer Institute	Multi-PI	\$405,950	9/1/2023	12
E-Teams Propel Workshop: WAVED Medical	VentureWell Accelerator Program	PI	\$20,000	4/1/2023	17
Uncovering the Feedback Loop between the Central Nervous System and Adipose Tissue	Keck Foundation	Senior Personnel	\$1,200,000	1/1/2023	36
E-Teams Pioneering Workshop: WAVED Medical	VentureWell Accelerator Program	PI	\$5,000	12/1/2022	12
I-Corps: Customer discovery for breast cancer detection technology	National Science Foundation	PI	\$50,000	6/1/2022	12
I-TREP: FDA consulting	University of Vermont	PI	\$3,500	6/1/2022	1

WAVED: Participation in the Maine Innovation Research and Technology Accelerator	University of Maine	PI	\$30,000	2/1/2022	4
Computational assessment of tumor-associated mammographic breast tissue disruption: Towards a pre-detection diagnostic method	National Institute of General Medical Sciences through the DRIVEN Acceleration Fund	PI	\$24,750	9/21/2021	12
MammoWAVED: Mammography Wavelet-based Assessment for Visualization and Early Detection of breast cancer	Maine Technology Institute	PI	\$25,000	9/1/2021	6
Computational Oocyte Recognition in Mouse Ovarian Imaging	The Jackson Laboratory	PI	\$6,000	5/1/2021	12
Coupling Advanced Computational Analyses of Mammography and SHG Imaging for Early Detection of Breast Cancer Tissue Microenvironment Disruptions Accompanying Tumorigenesis	National Cancer Institute	Multi-PI	\$418,484	9/1/2020	36
MRI: Acquisition of a high-performance computing instrument to support deep learning, modeling / simulation, and visualization for STEM	National Science Foundation	Senior Personnel	\$350,000	10/1/2019	36
Imaging and computational analysis of human pancreatic cancer tissue samples	Maine Medical Center Research Institute	Co-PI	\$15,000	7/1/2019	6
Leveraging the Power of Diffuse Optical Imaging	UMaine Medicine Infrastructure Grant Award	Co-PI	\$100,000	6/1/2019	12
Diagnosing Breast Cancer through Biophysical Disruptions of Tissue Microenvironment	UMaine Medicine NIH Incentive Program Award	PI	\$5,000	6/1/2019	3
Novel Bone Strength Diagnostic Instrument Development and Normative Data Collection Study	NASA	Co-PI	\$14,977	10/17/2018	12
Integrating Computing into Science Teaching and Learning in Grades 6–8: A Diverse Partnership to Develop an Evidence-Guided Model to Serve Rural Communities	National Science Foundation	Senior Personnel	\$1,250,000	7/1/2018	36
G-alpha Control of the Cytoskeleton During Gradient Tracking	National Institutes of Health (R15)	Co-PI	\$424,462	7/1/2018	36
Quantification and Analysis of Greenland Glacier and Ice Cap discharge Using Automated Landsat Terminus Change Time Series and NASA Data Products	NASA	Co-PI	\$296,579	7/1/2018	36
MRI: Acquisition of a Digital light sheet microscope Leica TCS SP8 DLS: Bringing Light-Sheet Microscopy to Maine for Research and STEM education	National Science Foundation	Co-PI	\$497,479	9/1/2017	36
Wavelet leaders vs. the Wavelet Transform Modulus Maxima method	UMaine Faculty Research Fund	PI	\$8,000	6/1/2017	1.5
NVIDIA GPU Grant Program: One Titan X Pascal graphics card	NVIDIA Corporation	PI	Est. ~\$1,500	3/14/2017	12
Longitudinal Analysis of Mammographic Breast Lesions and their Microenvironment	Maine Cancer Foundation	PI	\$172,515	7/1/2014	42
Two-dimensional projection of three-dimensional fractal geometrical clusters	UMaine Faculty Research Fund	PI	\$7,500	6/1/2014	1.5
On the Early Detection of Breast Cancer	UMaine Faculty Research Fund	PI	\$14,300	1/1/2013	12
3D MammoComp: Next-Generation Computational Analysis of Breast Tomosynthesis	Maine Cancer Foundation	PI	\$82,843	7/1/2012	12
Three-Dimensional Computational Modeling of Chromosomal Decondensation Growth in Normal and Cancerous Cell Development	UMaine High-End Instrumentation Research Award	PI	\$5,000	1/1/2012	6

Travel award to attend EMBL conference in Heidelberg, Germany	UMaine Bangor Savings Bank Faculty Development Fund	PI	\$1,500	10/15/2011	1
Research Experiences for Undergraduates. SuperME: Supercomputing Undergraduate Program in Maine	National Science Foundation / Department of Defense	Senior Personnel	\$299,953	8/1/2010	36
Cyber-infrastructure Investment for Development, Economic Growth and Research	Maine Technology Institute	Co-PI	\$250,000	6/1/2010	24
Computational Pathology: 3D Chromosome Structure in Normal and Neoplastic Cells	Maine Cancer Foundation	PI	\$79,990	7/1/2010	12
Automated Computational Characterization of Mammographic Breast Lesions	UMaine Faculty Research Funds	PI	\$7,500	6/1/2010	1.5
Three-Dimensional Computational Analysis of Chromosome Territories	UMaine Faculty Research Funds	PI	\$16,365	1/1/2010	12
Multi-Scale Characterization of Galaxy Distributions Using the Metric Space Technique	Maine Space Grant Consortium	Co-PI	\$420	11/15/2009	N/A
Sleep, Arousal, and Spontaneous Movement in Opioid Exposed Infants	National Institutes of Health (R21)	Co-PI	\$337,000	6/30/2009	24
Strengthening Biotechnology and Supporting the STEM Education Initiative in Maine	Maine Technology Institute	Co-PI	\$883,160	6/23/2009	60
Wavelet-Based Image Analysis of Mammograms	Maine Cancer Foundation	PI	\$73,552	7/1/2008	12
Wavelet-Based Image Analysis of Mammograms	UMaine Junior Faculty Research Fellowship	PI	\$7,500	4/15/2008	6
Artificial Bone Implant Research	Stryker Orthopaedics	PI	\$53,715	7/1/2007	12
MRI:Acquisition of a Sub-Micron Resolution X-Ray Computed Tomography System	National Science Foundation	Co-PI	\$580,000	8/15/2006	24
Artificial Bone Implant Research	Stryker Orthopaedics	Co-PI	\$155,844	7/1/2006	12

## THESIS SUPERVISION

### Supervised Doctoral Theses

- 1) Wu, Yongfeng, Ph.D. Astrophysics 2010. '*Multi-Scale Three-Dimensional Analysis of Galaxy Distributions Using the Metric Space Technique*' (Co-chair with Dr. David Batuski).
- 2) Richard, Christian, Ph.D. Functional Genomics 2014. '*A Wavelet-Based Phenotyping Algorithm Characterizing Seizure Morphology And Frequency Variation In Genetic Models Of Absence Epilepsy*' (Co-chair with Dr. Wayne Frankel).
- 3) Toner, Brian, Ph.D. Computer Science 2019. '*A Longitudinal Study of Mammograms Utilizing the Automated Wavelet Transform Modulus Maxima Method*'.
- 4) Batchelder, Kendra, I.Ph.D. Computational Biomedicine 2023. '*Longitudinal analysis of mammographic microenvironment tissue disruption accompanying tumorigenesis*'.
- 5) Seekins, Tyler, Ph.D. Chemical Engineering 2023. '*Computer vision for paper fiber quantification*'. (Co-chair with Dr. Douglas Bousfield).
- 6) Juybari, Jeremy, Ph.D. Electrical and Computer Engineering 2024 (expected). '*Computational analysis of patient-matched mammogram and pathological tissue samples*' (Co-chair with Dr. Yifeng Zhu).
- 7) Miner, Jordan, Ph.D. Biomedical Engineering 2025 (expected). '*Quantitative imaging of culture and native breast tissue sample*'. (Co-chair with Dr. Karissa Tilbury).
- 8) Joshua Hamilton, Ph.D. Biomedical Engineering 2026 (expected). '*Multiscale anisotropy analysis of cancer microenvironment tissue*'.

### Supervised Masters Theses

- 9) Wu, Yongfeng, M.S. Astrophysics 2007. '*New Statistical Methods to Get the Fractal Dimension of Bright Galaxies Distributions from the Sloan Digital Sky Survey Data*' (Co-Chair with Dr. David Batuski).
- 10) Robitaille, Jean-François, M.S. Astrophysics 2008. '*Analyse Métrique de Structure HI dans le Plan Galactique*' (Co-Chair with Dr. Gilles Joncas, Université Laval, Canada).

- 11) Grant, Jeremy, M.A. Mathematics 2008. '*Wavelet-Based Segmentation of Fluorescence Microscopy Images in Two and Three Dimensions*'.
- 12) Potter, Matthew, M.A. Mathematics 2010. '*Prime Modulo and Pascal's Triangle As Seen With Fractal Geometry*'.
- 13) Mooers, Kendra, M.A. Mathematics 2013. '*Characterization of Mammographic Breast Lesions And Their Microenvironment: An Application of a Wavelet-Based Multifractal Formalism*'.
- 14) Cox, Derrick, M.A. Mathematics 2014. '*Computational Analysis of Mammographic Breast Tissue Using the Metric Space Technique*'.
- 15) Toner, Brian, M.A. Mathematics 2015. '*The Geometric Properties of Cells Exhibiting Huntington's Disease*'.
- 16) Connerty-Marin, Zachary, M.A. Mathematics 2017. '*Automated tracking of marine extremophiles from 3D digital holographic microscopy*'.
- 17) Juybari, Jeremy, M.A. Mathematics 2020. '*A Method to Reclaim Multifractal Statistics from Saturated Images*'. (Co-chair with Dr. David Bradley)
- 18) Liu, Julia, M.S. Earth Sciences 2020. '*Automated Terminus Detection For Greenland's Peripheral Marine-Terminating Glaciers*'. (Co-chair with Dr. Elynn Enderlin)
- 19) Varney, Hannah, M.S. Biomedical Engineering 2021. '*Segmentation and Statistical Analysis of Imaged and Simulated 3D Chromosome Territories*'.
- 20) Jarvis, Katherine, M.S. Biochemistry 2021. '*Mathematical modeling of signaling pathways in yeast*'. (Co-chair with Dr. Josh Kelley)
- 21) Hamilton, Josh, M.S. Biomedical Engineering 2022. '*Anisotropy analysis of collagen architecture in pancreatic and breast tumor tissue slides*'. (Co-chair with Dr. Karissa Tilbury)
- 22) White, Basel, M.S. Biomedical Engineering 2023. '*Hybrid power spectral and wavelet image roughness analyses*'.
- 23) Raza, Madison, M.S. Biomedical Engineering 2023. '*Mammographic tissue microenvironment assessment using the Metric Space Technique*'.
- 24) McCarthy, Margaret, M.S. Biomedical Engineering 2023. '*Quantitative visualization of mammographic tissue microenvironment disruption*'.

#### Supervised Honors Theses

- 25) Dewey, Hannah, B.A. Honors Mathematics 2014. '*Wavelet-Based Multifractal Analysis of Brain Images*'.
- 26) Ossanna, Elliot, B.A. Honors Mathematics 2015. '*Fractal Dimension of Residues Sets Within Pascal's Triangle Under Square-Free Moduli*'.
- 27) Plourde, Shayne, B.A. Honors Mathematics 2015. '*Modeling the Growth of Breast Microcalcifications in Mathematically-Generated Breast Tissue Environments Using an Agent-Based Model*'.
- 28) Canning, Dexter, B.A. Honors Mathematics 2019. '*Wavelet-Based Mammographic Analysis of Normal and Tumorous Tissue Microenvironment*'.
- 29) Abay, Betelhem, B.S. Biomedical Engineering 2020. '*Exploration of The Relationship Between The Fractal Dimension Of Microcalcification Clusters And The Hurst Exponent Of Background Tissue Disruption In Mammograms*'.
- 30) White, Basel, B.S. Biomedical Engineering 2021. '*Automated segmentation of breast tissue from mammograms*'.

---

## SEMINARS AND PRESENTATIONS

---

December 2023: San Antonio Breast Cancer Symposium, San Antonio, TX

- 1) **Poster:** *Multiscale Computational Analysis of Patient-Matched Multi-Modal Imaging of Breast Tissue Microenvironment*

July 2023: Laboratoire de Physique Colloquium Series, Ecole Normale Supérieure Lyon, France

- 2) **Invited talk:** *Longitudinal Case-Control Study of Mammographic Breast Tissue Subtypes*

June 2023: 10<sup>th</sup> International Breast Density & Cancer Risk Assessment Workshop, Kailua-Kona, HI.

- 3) **Poster:** *Longitudinal Assessment of Active and Passive Dense Mammographic Tissue.*

- June 2023: 10<sup>th</sup> International Breast Density & Cancer Risk Assessment Workshop, Kailua-Kona, HI.
- 4) **Poster:** *Multiscale Anisotropy Analysis of Second-Harmonic Generation Images of Breast Tissue Microenvironment.*
- February 2023: MaineHealth and Northeastern University Roux Institute, Portland, ME
- 5) **Invited talk:** *Innovation Blender: Image-based risk assessment for mammography*
- November 2022: Annual Meeting of the Radiological Society of North America, Chicago, IL.
- 6) **Oral talk:** *Computational Assessment of Healthy vs. Risky Mammographic Breast Density.*
- November 2022: IDEXX – UMaine Research Exchange, Idexx Laboratories, Westbrook, ME
- 7) **Invited talk:** *Imaging software for cancer risk assessment*
- September 2022. Why Study Mammographic Density?, Melbourne, Australia.
- 8) **Oral talk:** *Quantitative Visualization of Healthy vs. Risky Mammographic Breast Density.*
- July/August 2021: EXPLO: Learning Through Exploration, Colby College, Waterville, ME
- 9) **Invited talks (set of 3 talks):** *From Mathematics, to Astrophysics, to Biomedicine: A 25-year Journey in 1 Hour.*
- June 2021: Laboratoire Ondes et Matieres d'Aquitaine, Universite de Bordeaux, France
- 10) **Invited talk:** *Loss of mammographic tissue homeostasis in breast carcinomas*
- January 2021: Bioscience Association of Maine (BIOME) Virtual Coffee Hour
- 11) **Invited talk:** *Novel computational technology to pre-detect breast cancer: Moving towards commercialization*
- October 2020: SFtools-bigdata: The close structural connection between gas and young stars focus on current and new tools of data analysis, Université Grenoble Alpes, France
- 12) **Invited talk:** *Overview of applications of the 2D Wavelet Transform Modulus Maxima method*
- March 2020: National Cancer Institute, Div. of Cancer Epidemiology and Genetics, Rockville, MD
- 13) **Invited talk:** *Characterization of loss of tissue homeostasis in mammographic breast tumor microenvironment*
- December 2019: San Antonio Breast Cancer Symposium, San Antonio, TX
- 14) **Poster:** *Exploratory computational longitudinal analysis of mammographic microenvironment disruption preceding breast tumorigenesis.*
- November 2019: UMaine Medicine Microscopy Symposium
- 15) **Invited talk:** *Image analysis for x-ray, 3D holography, DIC, confocal, widefield, 2-photon fluorescence and Second Harmonic Generation Microscopies*
- October 2019: The Jackson Laboratory Seminar Series
- 16) **Invited talk:** *Computational Engineering at CompuMAINE*
- September 2019: IDEXX Artificial Intelligence / Machine Learning Annual Symposium, IDEXX Laboratories, Westbrook, ME
- 17) **Keynote talk:** *Loss of tissue homeostasis in breast tumor microenvironment*
- April 2019: 46<sup>th</sup> Maine Biological and Medical Sciences Symposium, MDI Laboratory, ME
- 18) **Poster:** *The CompuMAINE Laboratory*
- January 2019: Centre de Recherche Mathématiques, Université de Montréal, QC, Canada
- 19) **Invited talk:** *Loss of tissue homeostasis in breast tumor microenvironment*
- January 2019: Linguistique des Rives, École Secondaire de Terrebonne, QC, Canada
- 20) **Invited talk:** *From Mathematics, to Astrophysics, to Biomedicine: A 25-year Journey in 3 Hours.*
- November 2018: Pi Mu Epsilon Career Day, University of Maine, Orono, ME
- 21) **Invited talk:** *A career as an applied mathematician*
- April 2017: 44<sup>th</sup> Maine Biological and Medical Sciences Symposium, MDI Laboratory, ME
- 22) **Poster:** *Wavelet-Based Particle Tracking in Unreconstructed, Off-Axis Holograms*
- April 2017: UMaine Marches for Science, University of Maine, Orono, ME
- 23) **Invited speech:** *The Need for Fundamental Science*
- April 2016: 43<sup>rd</sup> Maine Biological and Medical Sciences Symposium, MDI Laboratory, ME
- 24) **Talk:** *The CompuMAINE Lab*
- January 2016: Department of Chemical/Biological Engineering, University of Maine, Orono, ME
- 25) **Invited talk:** *Fractal Analysis of Mammographic Breast Lesions and Characterization of Loss of Tissue Homeostasis in Tumor Microenvironment*
- January 2016: EPSCoR RII Track-2 Organization Symposium, Landmark College, Putney, VT

- 26) **Invited talk:** *The CompuMAINE Laboratory: Overview of Past and Current Activities*  
 November 2015: Department of Physics and Astronomy, University of Maine, Orono, ME
- 27) **Invited Talk:** *Fractal Analysis of Mammographic Breast Lesions and Characterization of Loss of Tissue Homeostasis in Tumor Microenvironment*  
 June 2015: Maine Technology Institute TechWalk 2015, Portland, ME
- 28) **Presentation:** *The CompuMAINE Lab*  
 February 2015: Graduate School of Biomedical Sciences and Engineering, U. Maine, Orono, ME
- 29) **Invited Talk:** *The CompuMAINE Laboratory*  
 June 2014: Joint International Centre for Theoretical Physics – The World Academy of Sciences School on Coherent State Transforms, Time-Frequency Analysis, and Applications
- 30) **Talk:** *Application of the 2D WTMM method to mammography texture analysis and characterization of breast lesions.*  
 June 2014: Joint International Centre for Theoretical Physics – The World Academy of Sciences School on Coherent State Transforms, Time-Frequency Analysis, and Applications
- 31) **Talk:** *Multifractal analysis of skin temperature dynamics of women breasts with and without tumor.*  
 May 2013: Maine Cancer Consortium Annual Meeting, Jackson Laboratory, Bar Harbor, ME
- 32) **Panel Discussion:** *Cutting-Edge Cancer Research in Maine* (invited as one of four cancer research experts from Maine)  
 November 2012: Breast Cancer - Leukemia International Consortium, École Norm. Sup. de Lyon, France
- 33) **Invited Talk:** *Breast Cancer and Leukemia: On-Going Projects from The CompuMAINE Lab*  
 September 2012: Department of Physics and Astronomy, University of Maine, Orono, ME
- 34) **Talk:** *The CompuMAINE Laboratory*  
 August 2012: Signal Proc. and Image Analysis Interest Group, The Jackson Laboratory, Bar Harbor, ME
- 35) **Invited Talk:** *Fractals in Mammograms and Wavelets in Chromosomes: Signal Processing, Image Analysis and Modeling*  
 April 2012: University of Maine School of Biology and Ecology Colloquium Series
- 36) **Invited Talk:** *Fractals in Mammograms and Wavelets in Chromosomes*  
 April 2012: Maine Biological and Medical Scientific Symposium, Salisbury Cove, ME
- 37) **Invited Talk:** *Biomedical Image and Signal Processing, Analysis, and Modeling*  
 April 2012: Maine Biological and Medical Scientific Symposium, Salisbury Cove, ME
- 38) **Poster:** *SWDfinder: A Computational Tool for the Detection of Absence Seizures in Seizure-Prone Mice*
- 39) **Poster:** *Successful Discrimination Between Benign vs. Malignant Breast Lesions Using a Wavelet-Based Multifractal Method*
- 40) **Poster:** *3D Structural Analysis and Modeling of Chromosome Territories*  
 March 2012: U. Maine Graduate School of Biomedical Sciences Student Reception, Orono, ME
- 41) **Talk:** *Computational Image Processing in Biomedicine.*  
 November 2011: Medical Research Council, Imperial College London, England
- 42) **Invited Talk:** *Computational Analysis of Chromosome Territories*  
 November 2011: Kirchhoff Institute for Physics, University of Heidelberg, Germany
- 43) **Invited Talk:** *3D Modeling of Chromosome Territories*  
 June 2011: Maine Cancer Foundation Annual Meeting, Portland, ME
- 44) **Invited Presentation Display:** *Breast Cancer: Wavelet-Based Image Analysis of Mammograms*  
 45) **Invited Presentation Display:** *Computational Pathology: 3D Structure of Chromosome Territories during Progression to Malignancy*  
 September 2010: U. Maine Graduate School of Biomedical Sciences Annual Meeting, Orono, ME
- 46) **Poster:** *Probabilistic Modeling of 2D Foci Counts with Respect to Radial Distribution*  
 47) **Poster:** *Enhanced 3D Segmentation of Fluorescence Microscopy Images*  
 August 2010: SuperMe: UMaine Research Experience for Undergraduates, Orono, ME
- 48) **Invited Talk:** *Fractals and Wavelets*  
 February 2010: Maine Aquaculture and Innovation Center Annual Meeting, UMaine, Orono, ME
- 49) **Invited Talk:** *Automated Image Analysis of Seabird Activity*  
 February 2010: U. Maine Graduate School of Biomedical Sciences Student Reception, Orono, ME

- 50) **Poster:** *Pore size and morphology modulate patterning of soft-tissue in-growth into porous titanium implants based on novel imaging tools*
- 51) **Poster:** *2D and 3D Signal Processing Tools for Bio-Medical Image Analysis*  
September 2009: U. Maine Graduate School of Biomedical Sciences Annual Meeting, Orono, ME
- 52) **Poster:** *Pore size and morphology modulate patterning of soft-tissue in-growth into porous titanium implants based on novel imaging tools*
- 53) **Poster:** *2D and 3D Signal Processing Tools for Bio-Medical Image Analysis*  
August 2009: Nano and Micro Technology Workshop, Mount Desert Island Bio. Lab, Salisbury Cove, ME
- 54) **Talk:** *Multifractal analysis of actigraphy signals*  
June 2009: Maine Cancer Foundation Annual Meeting, Portland, ME
- 55) **Invited Presentation Display:** *Breast Cancer: Wavelet-Based Image Analysis of Mammograms*  
June 2009: Physics of Complexity, Ecole Normale Superieure de Lyon, France
- 56) **Poster:** *Pattern of soft-tissue in-growth into porous implants based on novel imaging tools*
- 57) **Poster:** *Pore size and morphology modulate patterning of soft-tissue in-growth into porous titanium implants based on novel imaging tools*
- 58) **Poster:** *2D and 3D Signal Processing Tools for Bio-Medical Image Analysis*  
March 2009: 55th Annual Orthopaedic Research Society Meeting, Las Vegas, NV
- 59) **Poster:** *Pore size and morphology modulate patterning of soft-tissue in-growth into porous titanium implants based on novel imaging tools*  
November 2008: The Jackson Laboratory, Bar Harbor, ME
- 60) **Invited Talk:** *Signal Processing and Image Analysis with the WTMM Method*  
June / July 2008: Grad School of Math. and Comp. Methods for the Sciences, U. Heidelberg, Germany
- 61) **Invited Seven-Part Lecture Series (14 hours):** *The Wavelet Transform Modulus Maxima Method: Image Analysis Lecture Series*  
July 2008: Kirchhoff Institute for Physics, University of Heidelberg, Germany
- 62) **Invited Talk:** *Wavelet-Based Characterization of Chromosome Territories*  
July 2008: Laboratoire Joliot-Curie, Ecole Normale Superieure de Lyon, France
- 63) **Invited Talk:** *Morphological Analysis of Slow and Fast Muscle Cells in Zebrafish Embryos*  
June 2008: Department of Applied Physical Chemistry, University of Heidelberg, Germany
- 64) **Invited Talk:** *Image Analysis with the Wavelet Transform Modulus Maxima Method*  
May 2008: Pizza Pi, Department of Mathematics, University of Maine, Orono, ME
- 65) **Invited Talk:** *Building a bridge to nowhere and everywhere*  
May 2008: First Annual Meeting of the Graduate School of Biomedical Sciences, U. Maine, Orono, ME
- 66) **Invited Talk:** *Breast Cancer: Wavelet-Based Characterization of Microcalcification Clusters*  
March 2008: Department of Radiology, University of California, San Francisco, CA
- 67) **Invited Talk:** *Wavelet-Based Image Analysis*  
March 2008: 54th Annual Orthopaedic Research Society Meeting, San Francisco, CA
- 68) **Poster:** *Pattern of soft-tissue in-growth into porous implants based on novel imaging tools*  
February 2008: Institute for Molecular Biophysics Annual Meeting, Bar Harbor, ME
- 69) **Poster:** *Enhanced 3D Segmentation of Fluorescence Images*  
February 2008: Institute for Molecular Biophysics Annual Meeting, Bar Harbor, ME
- 70) **Talk:** *Biomedical Image Analysis and Modeling*  
October 2007: McGill University, Department of Biomedical Engineering, Montreal, Canada
- 71) **Invited Talk:** *Wavelet-Based Characterization of Chromosome Territories*  
June 2007: Frontiers in Microscopy II: Imaging From Single Molecules to Whole Organisms and Its Application, Bar Harbor, ME
- 72) **Poster:** *2D and 3D Signal Processing Tools for Bio-Medical Image Analysis*  
May 2007: Functional Imaging of the Cell Nucleus, Lyon, France
- 73) **Keynote Talk:** *Wavelet-Based Characterization of Chromosome Territories*  
March 2007: Frontiers in Probe Development, Bar Harbor, ME
- 74) **Poster:** *2D and 3D Signal Processing Tools for Bio-Medical Image Analysis*  
July 2006: 4th Annual Meeting of the Functional Genomics PhD Program, UMaine, Orono, ME
- 75) **Poster:** *2D and 3D Signal Processing Tools for Bio-Medical Image Analysis*  
July 2006: Frontiers in Microscopy, Bar Harbor, ME

- 76) **Poster:** 2D and 3D Signal Processing Tools for Bio-Medical Image Analysis  
 March 2006: Frontiers in Bio-membranes: Experiments and Theory, Bar Harbor, ME
- 77) **Poster:** 2D and 3D Signal Processing Tools for Bio-Medical Image Analysis  
 September 2005: Annual Scientific Advisory Board Meeting for the Institute for Molecular Biophysics, The Jackson Laboratory, Bar Harbor, ME
- 78) **Talk:** On the Development and Use of Rigorously Well-Defined, Quantitative, and Objective Image Analysis Tools: Keeping Up with Technological Advancements  
 August 2005: Third Annual Meeting of the NSF - IGERT Functional Genomics Ph.D. Program, University of Maine, Orono, ME
- 79) **Invited talk:** 2D and 3D Signal Processing Tools for Bio-Medical Image Analysis  
 July 2005: 3<sup>rd</sup> Annual Meeting of the Functional Genomics PhD Program, UMaine
- 80) **Poster:** 2D and 3D Signal Processing Tools for Bio-Medical Image Analysis  
 May 2005: International Galactic Plane Survey Consortium (IGPS) Meeting, Toronto, Canada
- 81) **Talk:** Fractals & Wavelets: New Projects and Early Results  
 March 2005: Department of Mathematics and Statistics, University of Maine
- 82) **Invited talk:** Wavelets and Fractals: From Astrophysics to Bio-Medical Image Analysis  
 February 2005: Department of Physics and Astronomy, University of Maine
- 83) **Invited talk:** Wavelets and Fractals: From Astrophysics to Bio-Medical Image Analysis  
 January 2005: Department of Spatial Information Science and Engineering, University of Maine
- 84) **Invited talk:** Wavelets and Fractals: From Astrophysics to Bio-Medical Image Analysis  
 May 2004: International Galactic Plane Survey Consortium (IGPS) Meeting, Penticton, Canada
- 85) **Talk:** Wavelet-Based Multifractal Formalism: Anisotropy... at all scales  
 March 2004: Scientific Meeting of the Centre de recherche de l'Observatoire du Mont-Mégantic, Lac-Estérel, QC, Canada
- 86) **Talk:** Modélisation de la structure anisotrope du HI à grande échelle  
 September 2003: Annual Meeting of the Québec Astrophysics Graduate Students from Universities Laval, McGill, and de Montréal, Montréal, Canada
- 87) **Talk:** Analyse de la structure du milieu interstellaire  
 June 2003: Society of Industrial and Applied Mathematics (SIAM) meeting, Montréal, Canada
- 88) **Talk:** Morphological Analysis of Galactic Neutral Hydrogen  
 May 2003: Association Francophone pour l'Avancement des Sciences (ACFAS) 76<sup>th</sup> Annual Meeting, Rimouski, QC, Canada
- 89) **Talk:** Analyse de la structure du milieu interstellaire
- 90) **Poster:** L'introduction du spectre de mesures de Hausdorff pour la caractérisation de structures de même dimension fractale  
 April 2003: International Galactic Plane Survey Consortium (IGPS) Meeting, Québec, Canada
- 91) **Talk:** Morphological Analysis of Galactic Neutral Hydrogen  
 March 2003: Scientific Meeting of the Centre de recherche de l'Observatoire du Mont-Mégantic, Lac-Delage, QC, Canada
- 92) **Talk:** Analyse morphologique de l'hydrogène neutre à grande échelle  
 September 2002: Annual Meeting of the Québec Astrophysics Graduate Students from Universities Laval, McGill, and de Montréal, Montréal, Canada
- 93) **Talk:** Analyse morphologique de l'hydrogène neutre  
 March 2002: Fractal 2002, Complexity and Fractals in Nature 7<sup>th</sup> Interdisciplinary Conference, Grenada, Spain
- 94) **Poster:** Morphological Analysis of Astrophysical Clouds  
 October 2001: "Seeing Through the Dust" International Conference, Penticton, BC, Canada
- 95) **Talk:** Exotic Tools for the Morphological Analysis of Neutral Hydrogen Clouds  
 September 2001: Annual Meeting of the Québec Astrophysics Graduate Students from Universities Laval, McGill, and de Montréal, Québec, Canada
- 96) **Talk:** Multifractales et Ondelettes  
 November 2000: International Symposium on the Applications of Fractal Techniques in Biology and Medicine, Montréal, Canada
- 97) **Invited talk:** Morphological Analysis of Molecular Clouds: A Multi-Tool Analysis

---

## CONFERENCES AND SYMPOSIA ATTENDED

---

- 1) December 2023: San Antonio Breast Cancer Symposium, San Antonio, TX
- 2) November 2023: Radiological Society of North America Annual Meeting, Chicago, IL
- 3) June 2023: International Breast Density and Risk Assessment Workshop, Kailua-Kona, HI
- 4) February 2023: MaineHealth Innovation Blender, Portland, ME (attended virtually)
- 5) November 2022: Radiological Society of North America Annual Meeting, Chicago, IL
- 6) September 2022: Why Study Mammographic Density, Melbourne, Australia (attended virtually)
- 7) October 2020: SFtools-bigdata, Université Grenoble Alpes, France (held virtually)
- 8) October 2020: Why Study Mammographic Density, Melbourne, Australia (held virtually)
- 9) December 2019: San Antonio Breast Cancer Symposium, San Antonio, TX
- 10) November 2019: UMaine Medicine Microscopy Symposium, Orono, ME
- 11) September 2019: 11<sup>th</sup> Annual Meeting of the GSBSE, University of Maine, Orono, ME
- 12) September 2019: 5<sup>th</sup> Annual AI/Machine Learning Symposium, IDEXX Labs, Westbrook, ME
- 13) April 2019: 46<sup>th</sup> Maine Biological and Medical Sciences Symposium, Salisbury Cove, ME
- 14) November 2018: Pi Mu Epsilon Career Day, University of Maine, Orono, ME
- 15) September 2018: 10<sup>th</sup> Annual Meeting of the GSBSE, University of Maine, Orono, ME
- 16) February 2018: Mindstorm Annual Event, IDEXX Labs, Westbrook, ME
- 17) September 2017: 9<sup>th</sup> Annual Meeting of the GSBSE, University of Maine, Orono, ME
- 18) April 2017: 44<sup>th</sup> Maine Biological and Medical Sciences Symposium, Salisbury Cove, ME
- 19) April 2017: UMaine Marches for Science, University of Maine, Orono, ME
- 20) April 2016: 43<sup>rd</sup> Maine Biological and Medical Sciences Symposium, Salisbury Cove, ME
- 21) January 2016: EPSCoR RII Track-2 Organization Symposium, Landmark College, Putney, VT
- 22) September 2015: 8<sup>th</sup> Annual Meeting of the GSBSE, University of Maine, Orono, ME
- 23) June 2015: Maine Technology Institute TechWalk 2015, Portland, ME
- 24) September 2014: 7<sup>th</sup> Annual Meeting of the GSBSE, University of Maine, Orono, ME
- 25) September 2013: 6<sup>th</sup> Annual Meeting of the GSBSE, University of Maine, Orono, ME
- 26) May 2013: Maine Cancer Consortium Annual Meeting, The Jackson Laboratory, Bar Harbor, ME
- 27) November 2012: Breast Cancer and Leukemia International Consortium, Lyon, France
- 28) September 2012: 5<sup>th</sup> Annual Meeting of the GSBS, University of Maine, Orono, ME
- 29) April 2012: 39<sup>th</sup> Maine Biological and Medical Sciences Symposium, Salisbury Cove, ME
- 30) December 2011: EMBO Molecular Medicine Conference: Molecular Insights for Innovative Therapies, Heidelberg, Germany
- 31) September 2011: 4<sup>th</sup> Annual Meeting of the GSBS, University of Maine, Orono, ME
- 32) June 2011: Maine Cancer Foundation Annual Meeting, Portland, ME
- 33) September 2010: 3<sup>rd</sup> Annual Meeting of the GSBS, University of Maine, Orono, ME
- 34) September 2009: 2<sup>nd</sup> Annual Meeting of the GSBS, University of Maine, Orono, ME
- 35) August 2009: Nano and Micro Technology Workshop, Salisbury Cove, ME
- 36) June 2009: Maine Cancer Foundation Annual Meeting, Portland, ME
- 37) June 2009: Physics of Complexity, Lyon, France
- 38) March 2009: 55<sup>th</sup> Annual Orthopaedic Research Society Meeting, Las Vegas, NV
- 39) September 2008: 1<sup>st</sup> Annual Meeting of the GSBS, University of Maine, Orono, ME
- 40) March 2008: 54<sup>th</sup> Annual Orthopaedic Research Society Meeting, San Francisco, CA
- 41) February 2008: Institute for Molecular Biophysics Annual Meeting, Bar Harbor, ME
- 42) June 2007: Frontiers in Microscopy II: Imaging From Single Molecules to Whole Organisms and Its Application, Bar Harbor, ME
- 43) May 2007: Functional Imaging of the Cell Nucleus, Lyon, France
- 44) March 2007: Frontiers in Probe Development, Bar Harbor, ME
- 45) July 2006: 4<sup>th</sup> Annual Meeting of the Functional Genomics Program, Orono, ME
- 46) July 2006: Frontiers in Microscopy, Bar Harbor, ME
- 47) March 2006: Frontiers in Bio-membranes: Experiments and Theory, Bar Harbor, ME
- 48) September 2005: Annual Meeting for the Institute for Molecular Biophysics, Bar Harbor, ME

- 49) August 2005: 3<sup>rd</sup> Annual Meeting of the Functional Genomics Program, Orono, ME
- 50) May 2005: International Galactic Plane Survey Consortium (IGPS) Meeting, Toronto, Canada
- 51) May 2004: International Galactic Plane Survey Consortium (IGPS) Meeting, Penticton, Canada
- 52) March 2004: Scientific Meeting of the Centre de recherche de l'Observatoire du Mont-Mégantic, Lac-Estérel, QC, Canada
- 53) September 2003: Annual Meeting of the Québec Astrophysics Graduate Students from Universities Laval, McGill, and de Montréal, Montréal, Canada
- 54) June 2003: Society of Industrial and Applied Mathematics (SIAM) meeting, Montréal, Canada
- 55) May 2003: Association Francophone pour l'Avancement des Sciences (ACFAS) 76<sup>th</sup> Annual Meeting, Rimouski, QC, Canada
- 56) April 2003: International Galactic Plane Survey Consortium (IGPS) Meeting, Québec, Canada
- 57) March 2003: Scientific Meeting of the Centre de recherche de l'Observatoire du Mont-Mégantic, Lac-Delage, QC, Canada
- 58) September 2002: Annual Meeting of the Québec Astrophysics Graduate Students from Universities Laval, McGill, and de Montréal, Montréal, Canada
- 59) March 2002: Fractal 2002, Complexity and Fractals in Nature 7<sup>th</sup> Interdisciplinary Conference, Grenada, Spain
- 60) October 2001: "Seeing Through the Dust" International Conference, Penticton, BC, Canada
- 61) September 2001: Annual Meeting of the Québec Astrophysics Graduate Students from Universities Laval, McGill, and de Montréal, Québec, Canada
- 62) November 2000: International Symposium on the Applications of Fractal Techniques in Biology and Medecine, Montréal, Canada

---

## REFeree / REVIEWER / EDITORIAL POSITIONS

---

### Journal Peer-Reviews (36 different journals)

➔ Academic Radiology; Analytical Methods; Applied and Computational Harmonic Analysis; Astrophysical Journal; Biomedical Optics Express; Biomedical Signal Processing and Control; BMC Cell Biology; BMC Molecular Biology; BMC Systems Biology; British Journal of Health Informatics and Monitoring; Cancers; Computers in Biology and Medicine; Computer Methods and Programs in Biomedicine; Current Medical Imaging; Current Medical Imaging Reviews; Cytometry Part A; Frontiers in Neuroengineering; IEEE-Access; IET Signal Processing; International Journal of Nanomedicine; Journal of Clinical Medicine; Journal of Histochemistry and Cytochemistry; Journal of Imaging; Journal of Personalized Medicine; Journal of Statistical Mechanics; Medical Engineering & Physics; Medical Physics; Methods; Monthly Notices of the Royal Astronomical Society; Nanotechnology: Science and Applications; Nonlinear Processes in Geophysics; Physica A; PLoS Computational Biology; PLoS One; Symmetry; TEST.

### Grant Proposals Reviewed

- 1) Review of funding proposals submitted to MITACS (Canada).
- 2) Review of funding proposals submitted to the Maine Cancer Foundation (US).
- 3) Review of funding proposals submitted to Agence Nationale de Recherche (France).
- 4) Review of funding proposals submitted to Fonds National de la Recherche Scientifique (Belgium).

---

## COURSES TAUGHT

---

Biological and Medical Image Analysis I and II, Calculus, Chemical Engineering Analysis, Computational Methods in Biology and Genetics, Computational Methods in Biomedical Engineering, Differential Equations, Fractals and Wavelets I and II, Fractal Geometry, Fuzzy Logic, History of Mathematics, Introduction to Analysis I and II, Linear Algebra, Mathematics for Engineers, Mathematics for Geographical Information Systems.

---

## MUSIC

---

- 1982 – 1987: Conservatoire de musique de Rimouski, QC, Canada
- Classical training: music theory, music history, solfege, music dictation
  - Instruments: piano, bassoon, and percussions, choir
  - Several concerts as a musician (solo, duo, symphonic, and choir)
- 1988 – present: Guitar (self-taught)

---

## SPORTS

---

As an athlete:

- 1990-1993: Member of the Rimouski AA collegiate basket-ball team
- 1992: Member of the Eastern-Quebec 3 vs. 3 senior basket-ball championship-winning team
- 1991: Captain of the Eastern-Quebec juvenile basket-ball championship-winning team
- 1990: Captain of the Eastern-Quebec high school basket-ball championship-winning team
- 1989: Member of the Eastern-Quebec high school basket-ball runner-up team
- 1988: Member of the Eastern-Quebec high school basket-ball championship-winning team

Referee:

- 1989-1993: Basket-ball referee (highest level: Quebec-Metro AA)
- 1986-1993: Soccer referee (highest level: Quebec Cup)

Coach:

- 1986-1991: Volunteer youth basket-ball coach
- 1986-1991: Volunteer youth soccer coach

Sports administrator:

- 1998: President of the Rimouski 3 vs. 3 basket-ball league
- 1991-1992: President and publicist for the Rimouski senior basket-ball league
- 1991-1993: Lead organizer for several basket-ball tournaments, including a 60+ team 3 vs. 3 tournament in 1992.

---

## LEISURE TIME

---

Gardening, reading, hiking, traveling, fishing, hunting, playing music, woodworking, and artisanal maple syrup production.
