

Top Hat: The Web-based Clicker & Homework Tool

Supported at University of Maine

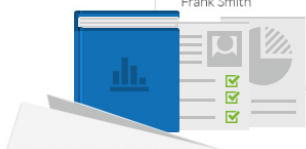

Top Hat transforms students' mobile devices into powerful classroom engagement tools.

How it works

1. Professors ask questions.
2. Students submit responses via WiFi or SMS using devices they already own (cell phones, laptops, tablets, smartphones, etc).
3. Watch the results come in live

Student	Participation	Grade
Anthony Long	75%	80%
Patricia Ford	60%	65%
Frank Smith	92%	98%
	90%	92%

Features

- 7+ different question types (Including multiple choice, numeric & free response.)
- Facilitate peer learning with open-ended Discussions
- Gamify the classroom with Tournaments
- Supports text or WiFi submissions
- Assign questions for homework
- Everything stored in the cloud and easily accessed for review
- Synchronize grades and rosters with Blackboard
- Automatically updated Gradebook so students and professors always know where they stand

Benefits of Top Hat

- Increase attendance, retention & grades
- No hardware to buy or software to install
- Works with existing IT infrastructure
- Learn best practices with dedicated 1:1 training for all faculty
- Fastest support response time in the industry (<30 minutes)

Resources for Professors
