

# Liquor, Lust and the Law Video

Developed by Greek peer educators, this 20 minute video strives to create a realistic setting for talking about drinking and the impact that it can have on students' lives.

Party scenes within the video depict situations that may look familiar to you. Watch carefully and you will see how a fun night can turn out to be trouble for someone who may not be aware of the many hazards of drinking. Pick up tips to avoid drinking pitfalls. The old image of a fraternity or sorority that resembles an "Animal House" is just that—old and outdated. Greeks are resuming their leadership role and are taking an active role in dealing with the challenges of student drinking while encouraging healthier behavior within the campus community.

Statistics have disturbingly shown that fraternity and sorority members drink more often and in greater quantities than other college students, putting them at higher risk. Through education and heightened awareness, the Greek Peer Educator Program hopes to change that trend and to help all students become more aware of the dangers of drinking.
