

# HACK AE

## AMERICA EAST HACKATHON 2019

### UNIVERSITY OF MAINE

### MARCH 2-3, 2019

### HACKING CHANGES THE WORLD!

Now in its third year, Hack AE is a 24-hour civic hackathon organized by the America East Academic Consortium, the academic initiative of the America East Conference. Hack AE 2019 turns its focus to the small farmers and other independent agricultural and agricultural dependent businesses. This year's event will bring together cross-disciplinary skills sets from across the northeast to address the integration of tech-savvy skills with the economic conditions of small agricultural businesses.

### WHY SHOULD YOU ATTEND HACK AE?

1. Discover internship and career opportunities with sponsoring and local companies
2. Learn about new and emerging technologies from industry experts
3. Hone your skills in the company of seasoned mentors
4. Meet fellow hackers from across the United States
5. Compete to win great prizes

### WHO CAN ATTEND:

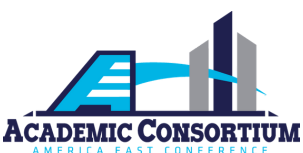

This year the HACK AE conference will be open to ALL students, at all Higher Education institutions, not just in the America East conference!

If you are a student designer, engineer, innovator, programmer, or person who believes technology can be used to make the world a better place, we hope you will join us. All academic backgrounds and skill levels are welcome!
