

# Scholar-Athlete Recognition Awards Ceremony

*Celebrating 29 years of academic excellence, 1989–2017*

Today, we celebrate the 29th annual Scholar-Athlete Recognition Ceremony. Since 1989, Scholar-Athlete Awards have been given to student-athletes who have earned a 3.0 or better grade point average in the previous spring and fall semesters, and/or have maintained a 3.0 or better accumulative grade point average.

The award is a medallion, the color of which symbolizes the number of years a recipient has received the award. This year's bronze (first year), silver (second year) and gold (third and fourth year) medallions will be awarded for academic excellence during the 2017 spring and fall semesters.

We also present the 2017 Rising Stars. These 78 student-athletes have earned a 3.0 or better grade point average in their first semester at the University of Maine.

This year's 190 Scholar-Athletes and 78 Rising Stars total 268 student-athletes. For the 14th consecutive year, we are honoring over one-half of the student-athletes at UMaine.

Since the inception of the Scholar-Athlete Awards in 1989, the University of Maine has awarded 3,975 medallions to student-athletes.

*The 2018 Scholar-Athlete Awards Ceremony is proudly sponsored by:*
