

New 3 credit graduate course for Fall 2025

Introduction to Marine Systems (SMS 598-0180)

Instructor: Prof. Heather Leslie

Mondays, 1-3:50 PM (9.8-12.8.25)

- This online synchronous course will introduce students to systems approaches in the marine sciences.
- Student will gain content knowledge in marine biology, marine policy, and oceanography, and hone their communication and collaborative research skills.
- Designed for 1st and 2nd year students, this course is a foundational course for students in the School of Marine Sciences (SMS) and allied units.
- **All students, regardless of degree program or stage, are very welcome!**

Interested?

By May 1, I invite you to send me an email at heather.leslie@maine.edu with the subject, Fall25 grad course, that explains why you want to take this course, and lists your degree program and advisor(s). Questions also are welcome!
