

DIY to Support Literacy Development, Access and Communication for Home and School

New video resources to support the use of augmentative and alternative communication!

Strategies to support literacy development, access and communication!

Learn HOW TO:

- Adapt a memory game with child's communication symbols, or new vocabulary
- Create a visual schedule with materials from around the house
- Add interactive and tangible motivators to math and reading/early literacy materials
- Adapt arts and crafts materials and activities
- Enhance the use of core vocabulary within daily activities
