

THREE LEADERS IN THE WORLD OF AUTISM ARE COMING TO PORTLAND!

Friday, September 18th

Important Autism Conference

Featuring Dr. Jed Baker, Sean Barron, and Eustacia Cutler!

DR. JED BAKER

Jed will speak on his new book *Overcoming Anxiety in Children and Teens*. Jed offers ideas on this challenge that affects virtually everyone on the spectrum - and many who are not. As with his other books on behavior and social skills, Dr. Baker offers hope to those hampered in life by anxiety.

SEAN BARRON

Sean Barron is interesting and intelligent young man who has faced the challenge of autism. He has progressed to the point that it is difficult to even realize that he once was truly impacted by autism. Sean is now a freelance writer, lives independently, and co-authored *Unwritten Rules of Social Relationships* with Dr. Temple Grandin. Sean is a graduate of Youngstown State University, and works as a reporter.

EUSTACIA CUTLER

Eustacia, the mother of Temple Grandin, will offer her view of autism through personal experience. Her daughter is now one of the most accomplished spokespersons on autism and animal behavior world-wide. Eustacia will discuss observations from her award-winning documentaries on challenged and emotionally disquieted children.
