

HELP WITH THE WEIGHTS

UNIVERSITY OF MAINE students in Engineering Technology at Orono (from left) Mike Martin of Georgetown, John Armstrong of Sangerville, Roger Marden of Dover-Foxcroft and Bill Burns of Hanover, modified a piece of weight equipment to allow those in wheelchairs to use the lateral pull-down Universal station at the Piscataquis Regional YMCA in Dover-Foxcroft. Sev-

eral members of the Physically Challenged Club were on hand Wednesday for the presentation, including Burchall Ronco of Guilford who tried the adjustable unit. Three other UMO students also helped on the project which was a cooperative effort between UMO, Mayo Regional Hospital, the YMCA and volunteers. (NEWS Photo by Diana Bowley)
