

# Meet the Team

**Katie Doyle**- Katie is a fourth year Mechanical Engineering Technology student and is pursuing minors in both Electrical Engineering Technology and Theatre. With technical experience in the theatrical and entertainment industries, she hopes to continue combining the best of engineering and art. She has worked as the Technical Director at Maples Repertory Theatre in Macon, Missouri this past summer and at the University of Maine Summer Music Theatre Festival in 2011. She currently works as a Technical Supervisor at the Collins Center for the Arts and the Scenic Shop for the theatre department. In her spare time she enjoys exploring New York City, sailing, and taking apart power tools.

**John Vicenzi**- John is currently a senior at the University of Maine in the Mechanical Engineering Technology department. Born in Portland Maine, John grew up and attend school at Yarmouth High school. This past summer John worked as an engineering intern at Geiger in Lewiston, Maine where he worked on projects such as improving manufacturing processes, programming a system of conveyor belts, and modifying existing machines to produce a new product. When he is not in class John can be found either playing ultimate frisbee or rock climbing at the campus gym.

**Jonathan Harwood**- Jon is a fourth year Mechanical Engineering Technology student at the University of Maine. His technical experience includes the use of CAD (computer aided design) and programs such as SolidEdge and SolidWorks. This past summer Jonathan was an intern at an ITAR compliant facility producing process's with the lead manufacturing engineer to increase production. Eventually, he hopes to obtain a job in either the Defense or amusement industries. Outside of the classroom, Jonathan is a member of the American Coaster Enthusiasts (ACE), a nationwide club that travels to various amusement parks around the country. He also enjoys playing sports such as hockey, tennis, and frisbee.

**Aaron Feldmus**- Aaron is a senior in the Mechanical Engineering Technology program at the University of Maine. He is a nontraditional student. After working as a manager of a hardware store for 14 years, Aaron decided to return to college to get his degree. The proud father of three girls Aaron is an avid motorcyclist, and enjoys many outdoor activities as well as spending time with family. His middle daughter Chelsey is an art student, also attending school at UMaine.

**Jacob Pulsifer**- Jake is a fourth year Mechanical Engineering Technology student at the University of Maine. Jake is from Saco, Maine where he attended Thornton Academy. While there, Jake participated in varsity football. He worked at the Saco Hannaford over the summer as a merchandiser, where Jake was in charge of ordering the DSD products such as liquor and Ice Cream. He was also in charge of setting up store displays. Jake has experience with CAD programs including Solid Edge and Solid Works. When Jake graduates this spring he is interested in pursuing a career within the field of engineering, specifically in automotive. His family has long been intertwined with the car business, including his late uncle Jolly John. In Jake's spare time he enjoys playing competitive sports such as, football and basketball and enjoys the casual game of golf.
