A/E - Request for Qualifications
Questions with *Responses*

- 1) How will UMaine manage field investigation including survey, wetlands, and Geotech? Should these services be included in the RFQ response?

The University will separately manage the services for survey, wetlands and Geotech. These services will not be provided through the selected A/E firm.

- 2) Is the classroom space intended for use by students and industry partners?

It is anticipated that the classroom space will be utilized by students and industry partners.

- 3) Will as-builts of the Keyo Building and surrounding site be made available.

The University will provide all documents the University has on file that relate to the proposed project.

- 4) Is the SMRT study report available for review prior to RFQ submission.

The SMRT report will not be made available prior to the RFQ submission.

- 5) The RFQ mentions a fee schedule for architectural/engineering services based on construction costs but doesn't specify the estimated or approved budget for the project. Can you share an estimated construction range for this project?

The anticipated total project budget is in the \$4.4M range.
