**Notes:**

1. These tables report student credit hours (SCHs) offered by the college or academic unit, regardless of the instructor's home unit. For example, all courses having a PSY prefix are considered to be offered by the College of Life Sciences, even if an instructor from the College of Education & Human Development taught a PSY course. SCHs generated by multidisciplinary courses are attributed to the academic unit of the instructor teaching the course.
2. Honors SCHs are credited to the Honors College -- with the exception of HON 498 and HON 499, where, when possible, the home unit of the advisor is credited.
3. Courses offered via DLL include distance (e.g., online, videoconferencing, and video streaming), CED, Academ-e, and Bridge Year course sections.
4. *Other* credit hours include those generated by travel courses and Disability Studies.
5. Credit hours reported in Quaternary Studies and the Graduate School of Biomedical Science & Engineering only include those hours taught by noncollegiate instructors. Credit hours taught in these programs by collegiate faculty counted in the home unit of the instructor.
6. Each year comprises fall and spring semesters.
