

UMaine Enrollment by Race/Ethnicity and Sex

This report shows University of Maine (UMaine) Enrollment by Race/Ethnicity and Sex.

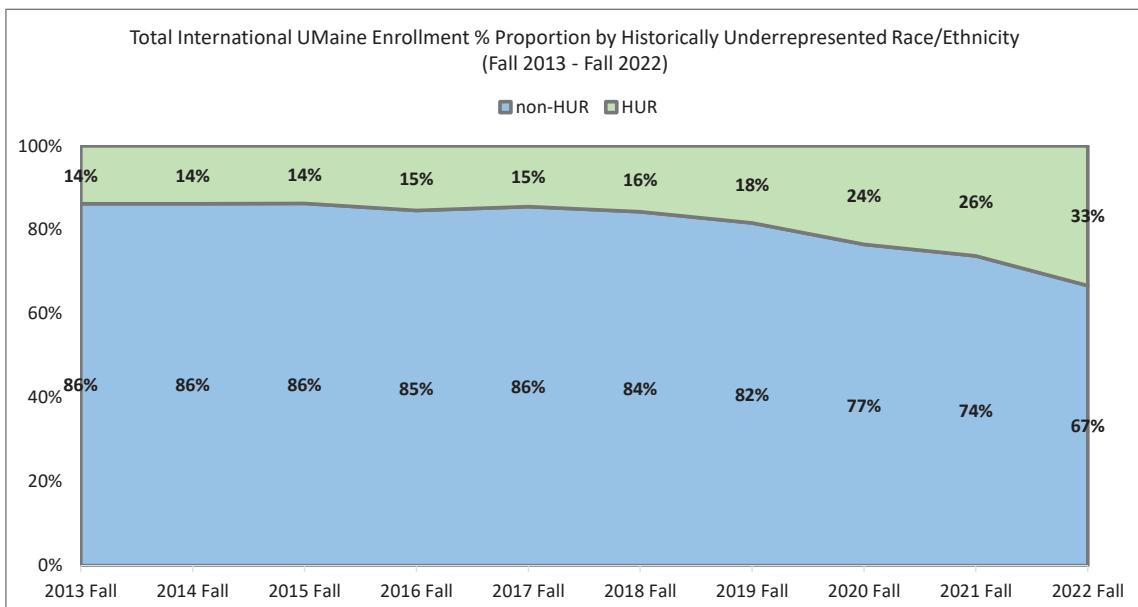

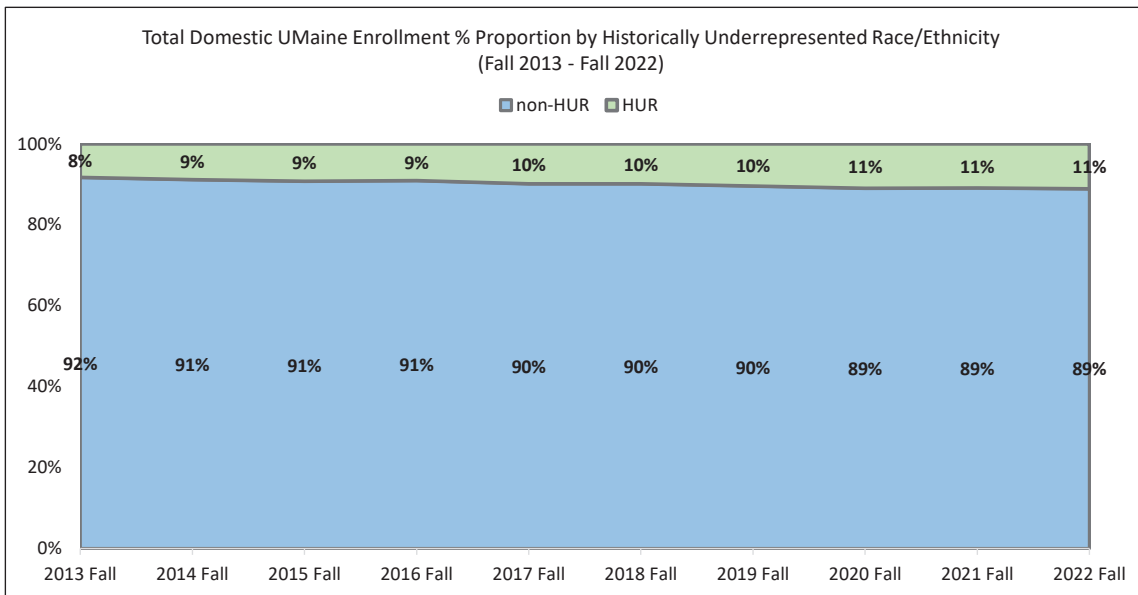

On the following pages, you will find:

- The proportion of historically underrepresented students by race/ethnicity (HUR)* over the last ten years
- Enrollment data disaggregated by race/ethnicity and sex for domestic and international students
- Five years of raw data for UMaine undergraduate and graduate enrollment by race/ethnicity and sex

***At UMaine, we define historically underrepresented race/ethnicity to include students reporting race/ethnicity who are American Indian/Alaskan Native, Black or African American, Hispanic/Latino, Native Hawaiian or Pacific Islander, and those identifying as two or more races. These categories maintain alignment with national IPEDS reporting required by most colleges and universities. We recognize that these categories do not capture all of the racial and ethnic identities our students experience. Non-historically underrepresented race/ethnicity includes Asian and White students.**

Data Highlights:

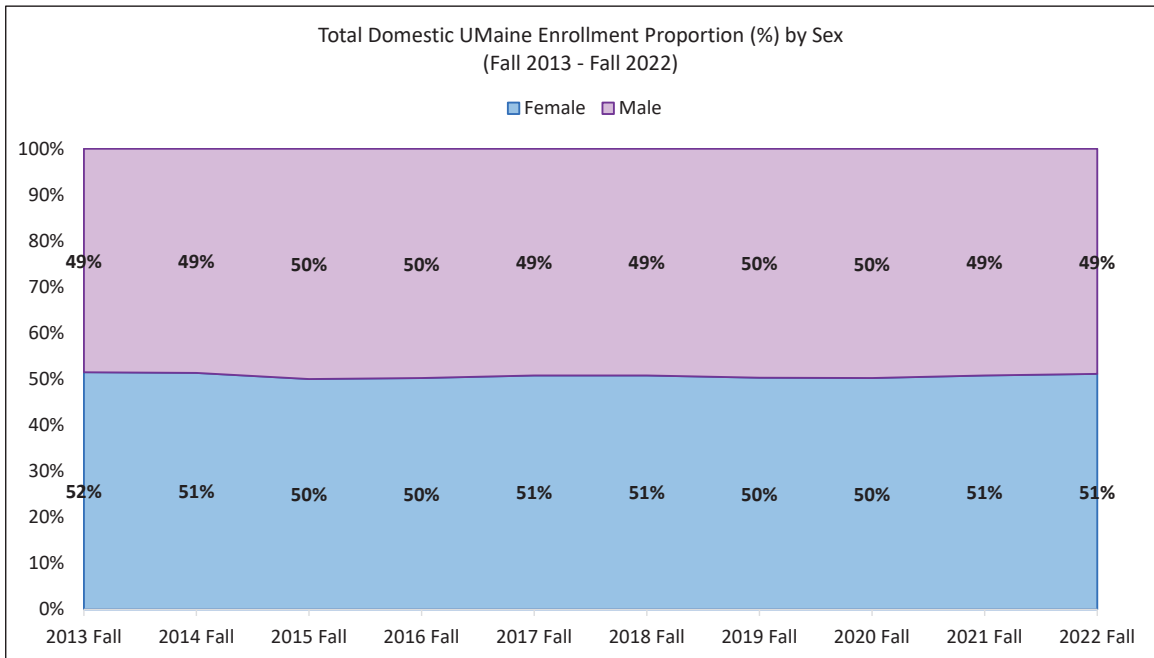

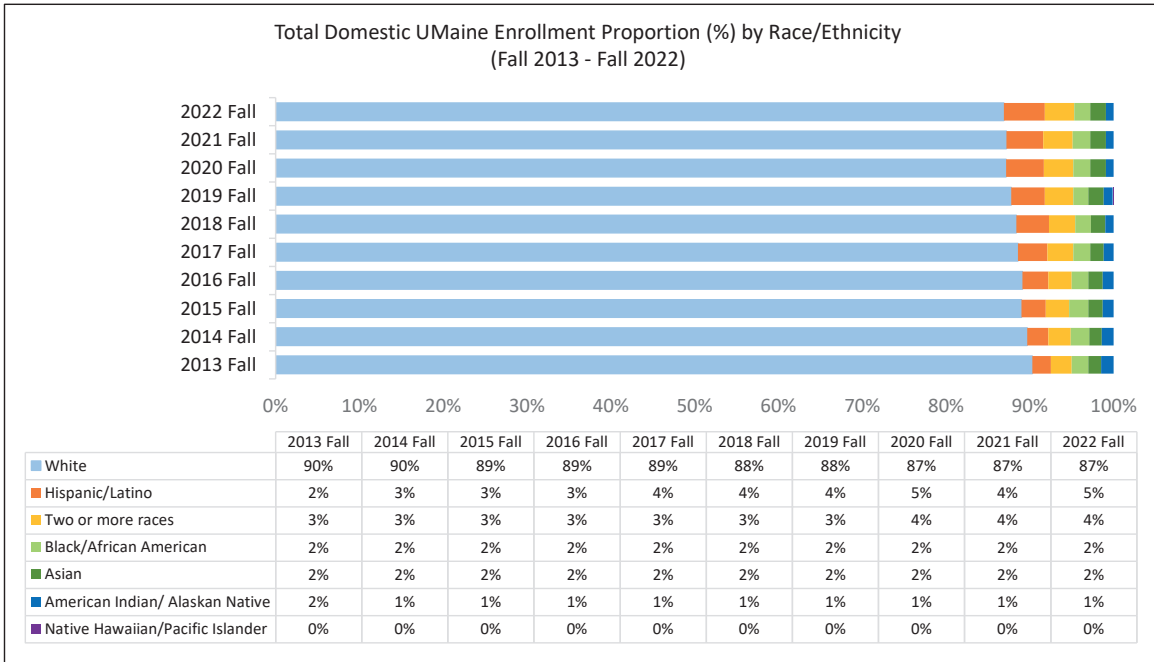

- The total number of HUR students at UMaine (domestic and international) increased from 841 in fall 2013 to 1,313 in fall 2022 which is a 56% increase over a 10 year period (vs. overall enrollment growth of 3%).
- In fall 2013, HUR students made up about 9% of students who reported race/ethnicity. In fall 2022, that percentage was 12%.
- The proportion of domestic HUR students increased from 8% in fall 2013 to 11% in fall 2022.
- The proportion of international HUR students increased from 14% in fall 2013 to 33% in fall 2022.

UMaine Enrollment by Race/Ethnicity and Sex

Data Highlights:

- The greatest increase in enrollment for domestic students occurred among those identifying as Hispanic/Latino; from 211 students in fall 2013 to 515 students in fall 2022.
- The makeup of the domestic students with respect to sex has remained consistent over the past 10 years with a roughly even proportion of males and females.

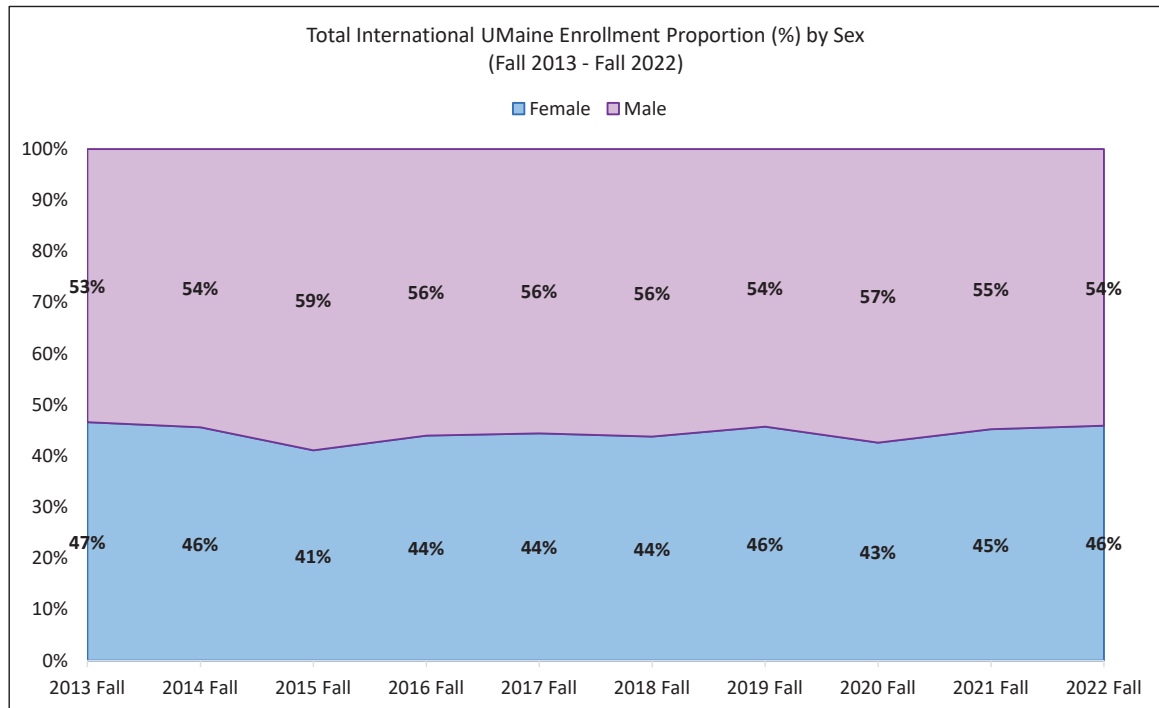

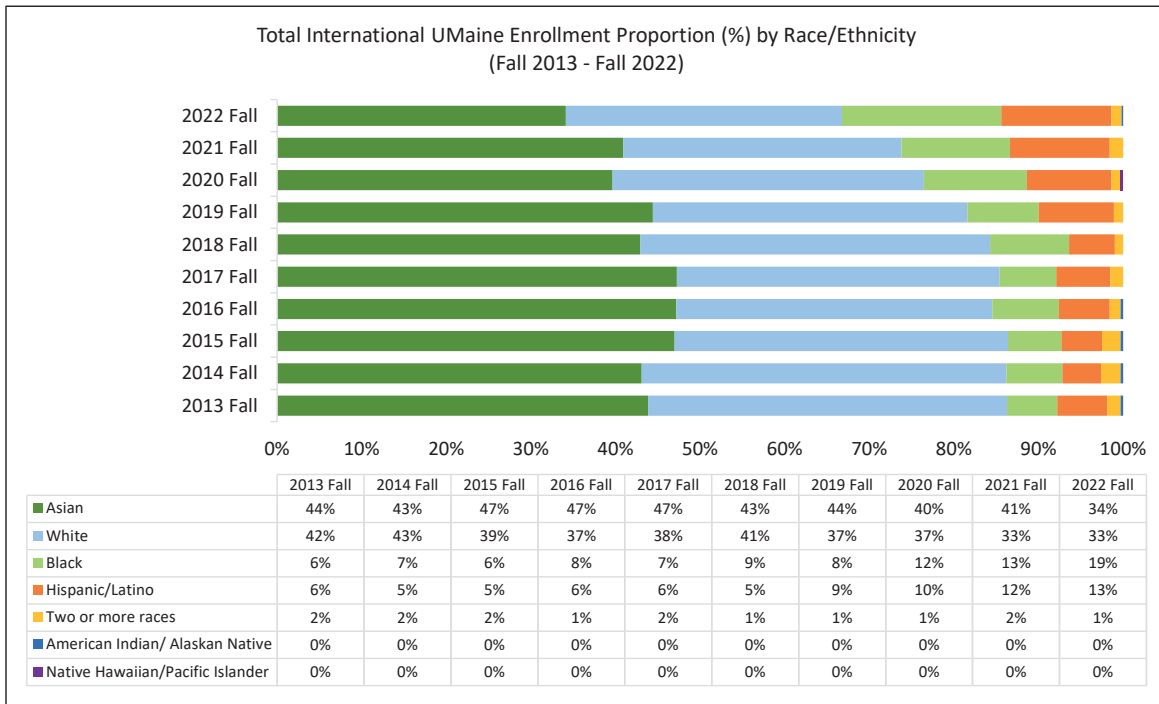

Notes: Race/ethnicity categories follow IPEDS guidelines, with the exception of International students being included in their respective race/ethnicity category. Hispanic/Latino students who select two or more races are included in the Hispanic/Latino category. Proportions (%) of student race/ethnicity include those with reported data only (excludes unknown). Proportions (%) of student sex include those with reported data only (excludes unknown).

UMaine Enrollment by Race/Ethnicity and Sex

Data Highlights:

- The greatest increase in enrollment for international students occurred among those identifying as Black; from 6% in fall 2013 to 19% in fall 2022.
- Despite decreased numbers, Asian students still make up more than one third of the total number of international students in fall 2022.
- In respect to sex, international students have a slightly higher proportion of males.

Notes: Race/ethnicity categories follow IPEDS guidelines, with the exception of International students being included in their respective race/ethnicity category. Hispanic/Latino students who select two or more races are included in the Hispanic/Latino category. Proportions (%) of student race/ethnicity include those with reported data only (excludes unknown). Proportions (%) of student sex include those with reported data only (excludes unknown).
