

UMaine Machias Enrollment by Race/Ethnicity and Sex

This report shows University of Maine Machias Enrollment by Race/Ethnicity and Sex.

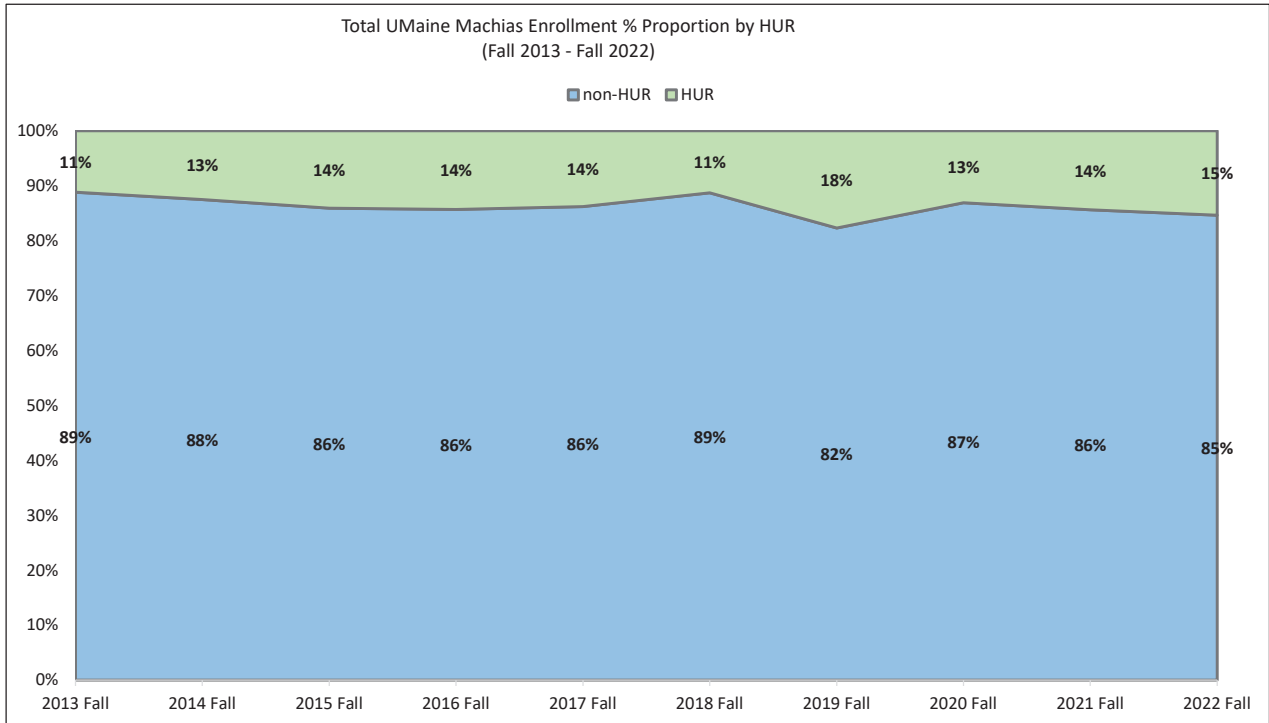

On the following pages, you will find:

- The proportion of historically underrepresented students by race/ethnicity (HUR)* over the last ten years
- Enrollment data disaggregated by race/ethnicity and sex for domestic and international students
- Five years of raw data for UMaine Machias undergraduate enrollment by race/ethnicity and sex

***At UMaine Machias, we define historically underrepresented race/ethnicity to include students reporting race/ethnicity who are American Indian/Alaskan Native, Black or African American, Hispanic/Latino, Native Hawaiian or Pacific Islander, and those identifying as two or more races. These categories maintain alignment with national IPEDS reporting required by most colleges and universities. We recognize that these categories do not capture all of the racial and ethnic identities our students experience. Non-historically underrepresented race/ethnicity includes Asian and White students.**

Data Highlights:

- Despite the 14% decrease in enrollment at UMaine Machias over a 10 year period, the total number of HUR students increased from 84 in fall 2013 to 110 in fall 2022. This represents a 31% increase over time.
- In fall 2013, HUR students made up about 11% of students who reported race/ethnicity. In fall 2022, that percentage was almost 15%.

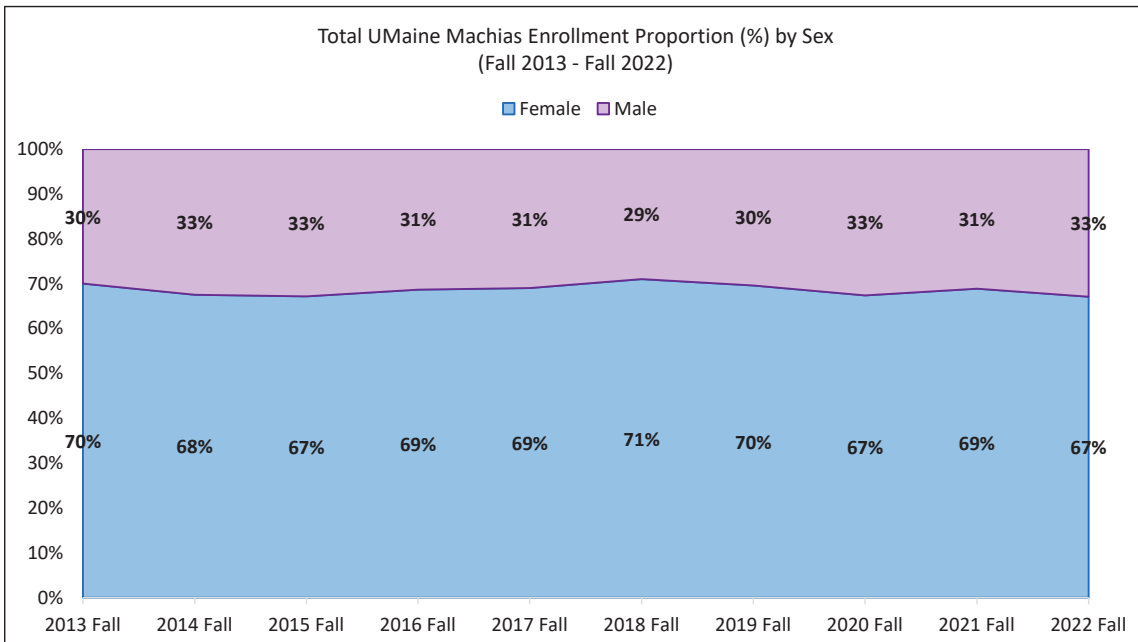

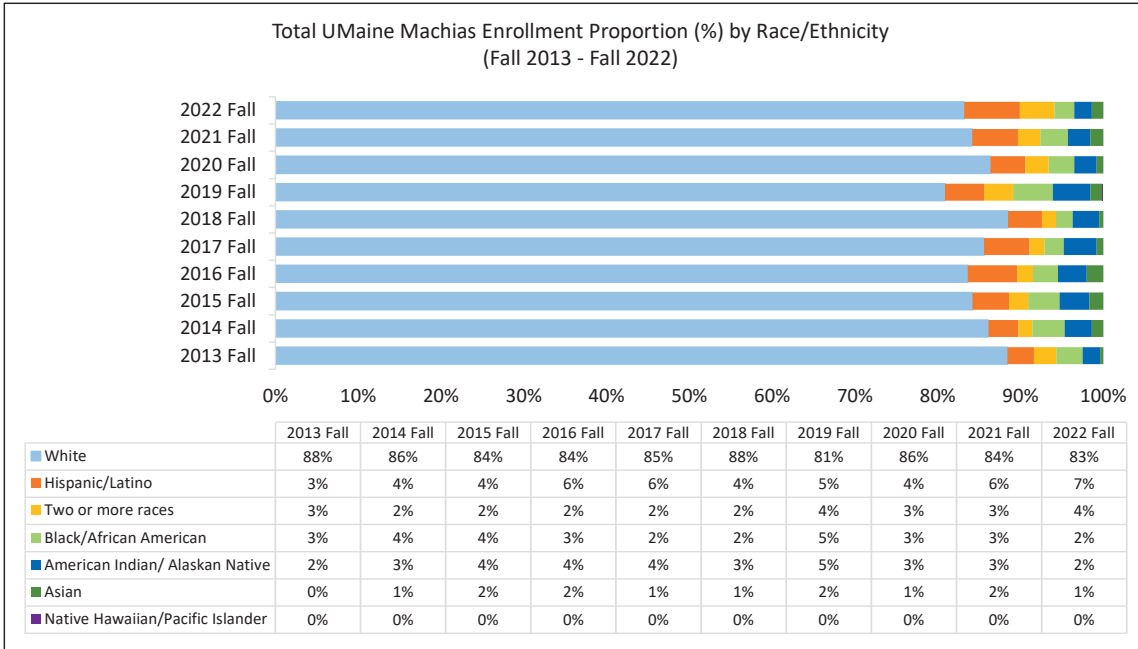

The University of Maine is an EEO/AA institution and does not discriminate on the grounds of race, color, religion, sex, sexual orientation, transgender status, gender expression, national origin, citizenship status, age, disability, genetic information or veteran's status in employment, education, and all other programs and activities. UMaine Machias Enrollment by Race/Ethnicity and Sex

Data Highlights:

- While the number of White and Black/African American students decreased since 2013, all other race/ethnicity groups saw an increase or no change in enrollment.
- The greatest increase was observed among the Hispanic/Latino students. In fall 2022, the number of Hispanic/Latino grew to 48, which is a twofold increase since fall 2013.
- The makeup of the UMaine Machias population with respect to sex has remained consistent over the past 10 years, with roughly 70% female students and 30% male students.

Notes: Race/ethnicity categories follow IPEDS guidelines, with the exception of International students being included in their respective race/ethnicity category. Hispanic/Latino students who select two or more races are included in the Hispanic/Latino category. Proportions (%) of student race/ethnicity include those with reported data only (excludes unknown).
