F. SUBRECIPIENT CLASSIFICATION

The requirements and responsibilities of a Subrecipient are different from those of a vendor/contractor as described in [2 CFR 200.331-333](#) Subrecipient and Contractor determination. Vendors are not subject to many of the flow-down provisions required of subawards, e.g., effort reporting under a federal award. It is therefore important that the work provided by any for-profit/commercial subrecipient be classified appropriately.

By signing this form, the subrecipient certifies that:

The goods and/or services we will provide under this transaction may be comparable to the goods and/or services we provide to many different customers during the course of our normal business operations; however, our entities goods and/or services will contribute to the objectives of the program, performance will be measured against these objectives and our entity will be responsible for making programmatic decisions. The entity is properly categorized as a Subrecipient based on the scope of work proposed.
