UMaine Glaciology Team – Clifford, Mayewski, Potocki

Provides support for both on-campus and community events and projects that feature University of Maine humanities scholars and artists.

This year's symposium theme is the "Story of Climate Change," and much of the Center's programming will be about the different media we can use to communicate climate change.

This fall, the Center is starting a pilot oral history project titled, "Maine Remembers the Coronavirus," which will feature interviews with Mainers to preserve their thoughts about the current crisis we're all facing.

Hosting virtual grant writing workshop on applying for NEH grants, September 25, 2020 More information about the workshop can be found at <https://umaine.edu/mhc/2020/07/27/neh-workshop/>.
