The University of Idaho's General Education Curriculum is a broad-based, interdisciplinary, multi-year, vertically integrated liberal arts educational experience. These learning outcomes, aligned with the University of Idaho's Five Learning Outcomes, seek to address the question of what it is that entails a twenty-first century educated person, and meet the needs of employers, a democratic society and the challenges of a rapidly changing and diverse world.
University of Vermont

The General Education Program reflects the faculty’s aspirations for all UVM undergraduates. General Education is the foundation of a transformative educational experience that prepares students to become accountable leaders who bring to their work dedication to the global community, a grasp of complexity, effective problem-solving and communication skills, and an enduring commitment to learning and ethical conduct. General Education courses transcend disciplinary boundaries; they help students develop integrated competencies that are essential to lifelong learning and responsible citizenship.
The University of Maine

“The University’s goal is to ensure that all of its graduates, regardless of the academic major they pursued, are broadly educated persons who can appreciate the achievements of civilization, understand the tensions within it, and contribute to resolving them.” (University of Maine Undergraduate Catalog)

Feedback from Scoring Session

Concerns
• Too much choice
• Classes no longer fit
• Student confusion
• Learning outcomes

Positive Comment
• Flexible
Looking Ahead

Current state at UMaine:
• Too many choices?
• Gen Ed courses not aligned with learning outcomes
• Implementation of Strategic Vision and Values framework

National Trends
• Changing National Conversation: Trend moving away from distribution model
• Increased competition for fewer students
• Changing workforce needs
New Strategic Framework for UMaine

Goal 1: We will support and grow Maine’s economy through new discoveries and by building a workforce whose members are engaged in their communities and prepared for lifelong success.
Possible Areas of Gen Ed Reform:

Student Perception
Northeastern’s Self-Authored Integrated Learning (SAIL)
Possible Area of Gen Ed Reform:

Increased Cohesiveness

- First-Year Seminars
- Common Intellectual Experiences
- Learning Communities
- Writing-Intensive Courses
- Collaborative Assignments and Projects
- Undergraduate Research
- Diversity/Global Learning
- ePortfolios
- Outreach/Service Learning
- Internships
- Capstone Projects
Pathways

- Clear coherent path through gen eds
- Ex: California State Chico, Virginia Tech

Tiered

- Move through gen eds by completing “tiers”
- Ex: Ohio State, University of Arizona
Vertically Integrated
• Major requirements and general curriculum are integrated
• Ex: University of Nevada, Las Vegas

Grand Challenges
• Interdisciplinary courses that address 21st century problems
• Ex: University of Rhode Island, Carnegie Mellon
Possible Area of Gen Ed Reform:

Stewardship
