

University of Maine  
Office of Research Compliance  
**Deemed Export Worksheet & Attestation**

**Overview:**

UMaine and all members of the UMaine community are required by federal law to comply with U.S. export control laws, sanctions, and embargoes when hosting, employing or otherwise engaging with non-immigrant foreign nationals, such as hosting exchange visitors. This worksheet collects critical information for compliance assessment of proposed visa petitions and/or activities of foreign nationals.

Please complete this form and submit either an electronic or hard copy to the Office of Research Compliance. Hard copies can be submitted to 5703 Alumni Hall, Rm. 310, Orono, ME 04467. Electronic copies can be forwarded to [um.export@maine.edu](mailto:um.export@maine.edu). Questions specific to Export Control Regulations or related to completing this form should be directed to [um.export@maine.edu](mailto:um.export@maine.edu) or to Amanda Ashe at (207) 581-1480. The export compliance staff will communicate directly with the host, sponsor, or supervisor to obtain additional information to complete the assessment.

**Important Background:**

When filing an H-1B, H-1B1, L-1 or O-1A petition, the United States Citizenship and Immigration Services requires that an employer certify that (1) it has reviewed the Export Administration Regulations (EAR) administered by the U.S. Department of Commerce and the International Traffic in Arms Regulations (ITAR) administered by the U.S. Department of State, and (2) it has determined whether or not a license (prior authorization) is required from either of these Government agencies to allow foreign national employees access to export controlled items or technology (laboratory equipment/research instruments, materials, software or technology/technical data) controlled under the EAR or ITAR. The transfer or release to a foreign national of such items by any means is "deemed" to be an export to the foreign national's country of citizenship or permanent residence, potentially requiring an export license unless a particular authorized license exemption applies.

While petitions for other visa categories do not require an export control certification to the U.S. Government, the underlying export control compliance requirement of not allowing unauthorized foreign national access remains the same. This form should also be used to request the Office of Research Compliance conduct and document a license determination for all visa applicants (including J-1 and F-1) who will be employed or hosted by UMaine, paid or otherwise.

It is incumbent upon the sponsoring department to notify the Office of International Programs and the Export Control Officer in the Office of Research Compliance of any material changes to the visa applicant's job duties which would require filing an amended petition. This includes, but is not limited to work location, types of technology used in performance of their job duties, and foreign travel.

It is important that before starting to complete and signing the Deemed Export Worksheet the petitioner familiarize him/herself with Export Control Regulations, ECR exemptions, and the items which are subject to ECR as outlined in the EAR [Commerce Control List](#) (CCL) and ITAR [United States Munitions List](#) (USML). Petitioners may visit [Export Control on the ORC website](#) to access ORC's [ECR Decision Tree \(PDF\)](#).

Deemed Export Worksheet**

**Instructions**

Please complete the worksheet below. The worksheet should be completed or signed by the individual with direct oversight of the visa applicant's (Beneficiary's) proposed work. *Questions should be directed to the Office of Research Compliance ([um.export@maine.edu](mailto:um.export@maine.edu)).*

**Section A. Beneficiary Information**

Beneficiary Name: \_\_\_\_\_

Country of citizenship: \_\_\_\_\_

Country of legal permanent residency: \_\_\_\_\_

Country of most recent residency: \_\_\_\_\_

Foreign institution/entity affiliation (if any): \_\_\_\_\_

Applicant proposed hired date: \_\_\_\_\_

Visa type:      H-1B      F-1      J-1      Other    If visa type is "Other," please list: \_\_\_\_\_

**Section B. Sponsor Information**

Name of sponsor (supervisor/PI): \_\_\_\_\_

Name of sponsoring department: \_\_\_\_\_

**Section C. Document Checklist**

Job description

Beneficiary's curriculum vitae

Copies of Beneficiary's passport(s), as follows:

**Pages Showing:**            **For Country(s) of Citizenship**    **Legal Permanent Residency (if applicable)**

Issuing government

Vital statistics

Signature

Photo

**Section D. Grant/Contract Information**

Titles & PeopleSoft chartfields of all known grants/contracts on which this Beneficiary will work:

<b>PeopleSoft Chartfield</b>	<b>Grant/Contract Title</b>
_____	_____
_____	_____
_____	_____

Beneficiary Name: \_\_\_\_\_

Deemed Export Worksheet**

**Section E. Work Information**

Please provide a brief explanation of work assignment:

- 1) Will the visa applicant be working in one of the following areas: biomedical sciences, computer sciences, space or space launch sciences, or any engineering or scientific discipline? Engineering or scientific disciplines may include **but are not limited to** the following: Chemical, Electrical, Semiconductor, Materials Science, Physics, Mechanical, Geophysical, Marine, Astronomy, Nuclear, Artificial Intelligence or Robotics.

Check one:

No, the assignment will **NOT** involve, expose, or potentially expose the applicant to any scientific discipline identified above, or if involved in such scientific discipline, will be acting in a teaching-only capacity, with no research involvement. **Please sign and date this form below (Section F) and submit it to the ECO in conjunction with your visa processing request.**

Yes, the assignment **WILL** involve, expose, or *potentially* expose the beneficiary to a scientific discipline (including but not limited to one or more of those listed above). You are required to check **all** the boxes for questions 2-5 below and sign and date at the bottom. If you do **not** have the information necessary to complete this certification, please contact the Office of Research Compliance ([um.export@maine.edu](mailto:um.export@maine.edu)) for guidance. **If, by virtue of the question, you are unable to check one of the following boxes, the ECO will work with you to further determine whether the work intended for the visa applicant requires prior export control authorization from a governing U.S. agency or requires a Technology Control Plan to temporarily or permanently restrict access by the beneficiary to only what is export controlled.**

- 2) The visa applicant will **NOT** be working under a sponsored research agreement (e.g., grant or contract) that restricts or prohibits the participation of foreign persons, i.e., there are no restrictive clauses pertaining to foreign nationals or non-U.S. person participating in the research.

*I certify this to be true.*

- 3) The visa applicant will **NOT** be working under a sponsored research agreement (e.g., grant or contract) that restricts or prohibits the research team's right to publish any of the data or research results, except for the sponsor's right to review and exclude from intended publication proprietary data that, under the terms of the Agreement, is exempt from publication.

*I certify this to be true.*

- 4) In performing the work under the visa, the visa applicant will **NOT** be provided access (whether or not actually required for his/her work assignment and whether through hard or soft copy) to:

- a. Technical data or information that has been stamped or otherwise designated by UMaine, external sponsor or collaborating institution as being "export controlled";

*I certify this to be true.*

Beneficiary Name: \_\_\_\_\_

**University of Maine  
Deemed Export Worksheet**

*Continued from previous page (Section E, Question 4).*

*In performing the work under the visa, the visa applicant will **NOT** be provided access (whether or not actually required for his/her work assignment and whether through hard or soft copy) to:*

- b. Sponsor or third-party proprietary or confidential information, materials, or software that is the subject of a Non-Disclosure Agreement (NDA) or equivalent confidentiality agreement;  
*I certify this to be true.*
- c. Third-party, proprietary technology for the development of cryptography, or source code containing cryptographic functionality;  
*I certify this to be true.*
- d. Third-party, proprietary information pertaining to the "use" or "development" or "production" of instruments, materials, software or scientific processes (technology) that is not in itself the subject or result of fundamental research eligible for publication.

For purposes of this question:

- i. "use" means that one or more of the following types of activities occur beyond merely operating a device or software: installation, maintenance, repair or overhaul/refurbishing.
- ii. "development" is related to all stages prior to serial production, such as: design research, design analysis, design concepts, assembly and testing of prototypes, pilot production schemes, design data, process of transforming design data into a product, or configuration design.
- iii. "production" means product engineering, manufacture, integration, assembly (mounting), inspection, testing, quality assurance.

*I certify this to be true.*

- 5) In performing the work under the visa, the visa applicant will not be provided access to research equipment, instruments, materials, software, and/or technical data in any form (e.g., blue print, sketches, specifications, documented technology, vendor operational manual/instructions, data results that is governed under the **ITAR**.

**ITAR** covers any item (equipment, instruments, materials, software, and/or technical data as exemplified above) specially designed, developed or modified for military, defense, or space applications) and may include such items whether procured from a vendor, or otherwise received by a research sponsor or collaborating research institution. For a list of the high level ITAR categories that identify such defense, military and space items please see the [International Traffic in Arms Regulations \(ITAR\) Munitions List](#). For purposes of this certification, "access" means any visual or physical access to the item, regardless of whether such access is actually required by the visa applicant to perform his/her work assignment.

(Note: Any technology that has been invented as the result of fundamental research and is the subject of a research publication (i.e., already in the public domain) may be exempt from this restriction, pending confirmation by the Export Control Officer. Please contact the Office of Research Compliance if there are any questions about whether such information meets this public domain standard.

*I certify this to be true.*

**University of Maine  
Deemed Export Worksheet**

**Section F. Certifications and Approvals**

*Must be signed by the Beneficiary's direct supervisor/principal investigator(s), the Chair of the sponsoring department and applicable college Dean, or the unit Director. Signatures by other authorized personnel and/or designees are not permissible.*

I hereby certify that I am personally knowledgeable with the job duties and other particulars of employment of the visa applicant listed above, and hereby affirm that the contents of the worksheet are true to the best of my knowledge, information, and belief.

I further understand that failure to accurately complete this worksheet can result in U.S. Government export control violations for which civil and criminal penalties can be assessed against (i) any individual (including a PI) found to have caused or facilitated a violation, and/or (ii) UMaine.

**University of Maine  
Deemed Export Worksheet**

**University of Maine Deemed Export Attestation**

The Office of Research Compliance, which administers the export control compliance program at the University of Maine, has reviewed the attached certifications and associated agreements and information submitted by Petitioner(s):

\_\_\_\_\_, Supervisor/PI; and

\_\_\_\_\_, Department Chair (if applicable; and

\_\_\_\_\_, Dean/Director;

for the Beneficiary, \_\_\_\_\_.

As of the date signed, and with respect to the technology or technical data the petitioner will release or otherwise provide access to the beneficiary, the petitioner certifies that it has reviewed the Export Administration Regulations (EAR) and the International Traffic in Arms Regulations (ITAR) and has determined that:

a license is **NOT** required from either the U.S. Department of Commerce or the U.S. Department of State to release such technology or technical data to the foreign person; or

a license **IS** required from the U.S. Department of Commerce and/or the U.S. Department of State to release such technology or technical data to the beneficiary and the petitioner will prevent access to the controlled technology or technical data by the beneficiary until and unless the petitioner has received the required license or other authorization to release it to the beneficiary.
