

Spring 2021 EPIC Course Announced!

INT 125: Experiential Program Innovation Central

Class meeting time: Friday 2:00 – 4:50 pm

Credit hours: 3

This course is designed to provide an overview of experiential learning pathways for students at a 21st century land grant research institution. Students work in teams on a semester long project designed to enhance communication and problem-solving skills.

Students will get to learn more about the following centers: Advanced Manufacturing Center (AMC), Center for Undergraduate Research (CUGR), Center for Innovation in Teaching and Learning (CITL), Foster Center for Student Innovation, and Innovative Media Research and Commercialization Center (IMRC).

INT 125 is taught by various interdisciplinary faculty instructors, led by Ali Abedi (Coordinator), Associate Vice President for Research and Center for Undergraduate Research Director.

Full course information such as schedule and meeting times, can be found on MaineStreet under the Spring 2021 course listing.

For more information, please contact Ali Abedi: ali.abedi@maine.edu
