Open to the entire UMaine Campus Community

Please join the Office of Research Development (ORD) for an informational session on funding opportunities available through the National Science Foundation (NSF).

The session will start with a welcome from Vice President for Research and Dean of the Graduate School, Kody Varahramyan, and opening remarks from President Joan Ferrini-Mundy.

A panel of NSF-funded UMaine faculty will also share their insights on successful grant writing and take questions from the audience. An overview of upcoming funding opportunities that UMaine is well-positioned to compete in will be highlighted by the ORD staff.
