

# RiSE Center Conference on STEM Education and Related Research

June 26–27, 2023, Wells Conference Center, University of Maine

The Maine Center for Research in STEM Education (RiSE Center) brings together over 100 researchers and educators every year for an exciting STEM education and research conference at the University of Maine.

**Make a positive impact on STEM education in Maine!  
Become a conference sponsor, partner, or collaborator.**

Support research-based professional learning, make connections, find project partners and share information about what you have to offer!

The theme this year is *Integrating Research and Practice: Engaging Students with Authentic Research and Problem Solving in STEM.*
