* The MSW Program requires three electives (generally 3 courses, though we do offer some 1-credit electives), which you may take whenever works best for you. SWK 580 is considered an elective. (See reverse side)

1. Four-year MSW students must complete three electives. Students who wish to become licensed at the Licensed Clinical Social Work level must choose SWK 580 (Psychopathology) as one of their three electives.. Electives may be completed in any semester, though suggested semesters are the first spring, any summer, or third fall.
2. If you have never taken a research or statistics class, you will need to complete such a course before beginning SWK 691.
3. Four-year MSW students who wish to complete the advanced year of the program as a full-time student (thus completing the program in three years) must petition for a change in their Program of Study by submitting a written request to Sandy Butler, MSW Program Coordinator by the start of the spring semester of the second year (when enrolled in SWK 563). Students must complete a Change of Sequence form as part of that request.
4. Four-year MSW students who want to complete the Specialization Year Field practicum (SWK 695) by doing a Summer Block Field practicum (May to August, 38-40 hours per week, during their final semester in the program) must petition for a change in their Program of Study. To petition for a change in their Program of Study, students should 1) attend a field application information meeting, and 2) submit the MSW Specialization Year Field Petition for Change in Program of Study form to the field team by December 1st of their third fall semester.
