

Solar Powering Your Community

Local Steps for Adopting Solar in Maine

Communities interested in learning more about solar development in the Greater Bangor Region are invited to a **free workshop** with national and local experts. This interactive workshop will provide actionable information on creating a local-level solar program, with a focus on:

- The benefits and barriers of solar development in Maine;
- Creating solar friendly planning and zoning codes and ordinances;
- Understanding the regulatory landscape of solar; and
- Innovative financing options for solar projects.

Saturday, May 2, 2015

10:00 a.m. – 3:00 p.m.

Cross Insurance Center

515 Main Street

Bangor, ME 04401

4 AICP CM Credits

Online registration is available at: <http://bit.ly/Bangorworkshop>

About the SunShot Solar Outreach Partnership

SolarOPs is a U.S. Department of Energy (DOE) program designed to increase the use and integration of solar energy in communities across the United States. The U.S. Department of Energy [SunShot Initiative](#) is a collaborative national effort to make solar energy systems cost-competitive with other forms of energy before 2020. To drive down the cost of solar electricity, the U.S. Department of Energy is supporting efforts by private companies, academia, and national laboratories.
