

2015 Geddes W. Simpson Lecture

October 5, 2015

3:30 p.m. (reception to follow)

McIntire Room

Buchanan Alumni House, University of Maine

Mark W. Anderson

2015 Geddes W. Simpson Lecturer
Senior Instructor Emeritus
School of Economics
University of Maine

Open Season on Chickadees: A Field Guide to the Anthropocene

You are invited to attend the 2015 Geddes W. Simpson Lecture. We invite you to the 14th Annual Geddes W. Simpson Lecture featuring resource economist Mark W. Anderson. His talk, “Open Season on Chickadees: A Field Guide to the Anthropocene,” will draw on lessons from Big History and the science of global change to assess the state of human society in the 21st Century. A “field guide” will be proposed to help us navigate this new epoch – the Anthropocene.

Geddes W. Simpson Lecture Series Fund. The Geddes W. Simpson Lecture Series features speakers of prominence “who have provided significant insight into the area where science and history intersect.” The Geddes W. Simpson Lecture Series Fund was established at the University of Maine Foundation in 2001 by the family of Geddes Wilson Simpson, a well-respected faculty member who began his 55-year career with the College of Life Sciences and the Maine Agricultural Experiment Station in 1931. Simpson was named chair of the Entomology Department in 1954 and remained in that position until his retirement in 1974.

The University of Maine does not discriminate on the grounds of race, color, religion, sex, sexual orientation, including transgender status and gender expression, national origin, citizenship status, age, disability, genetic information or veteran status in employment, education, and all other programs and activities. The following person has been designated to handle inquiries regarding nondiscrimination policies: Director, Office of Equal Opportunity, 101 North Stevens Hall, 207.581.1226.
