Strategic Values

- Fostering Learner Success
- Creating and Innovating for Maine and Beyond
- Growing and Stewarding Partnerships
At the core of the University’s mission is the creation of new knowledge. Fulfillment of this mission takes a wide variety of forms. As Maine’s Land and Sea Grant University we are committed to creating knowledge that impacts the social, cultural, and economic well-being of the state. At the same time, the impact of our creativity is not limited to the state’s borders. Innovation is built into our genetic make-up and, therefore, is present in all aspects of our operation. Our community encompasses designers, builders, makers, and discoverers working in and across a remarkable range of contexts. We champion this work and we apply it in the service of our state, our region, and the world.

Our Guiding Questions for Today

1. How well does this statement capture a strategic value that should guide the University’s development?

2. What goals should the university pursue that would best express this strategic value?

3. What strategies should the University employ to achieve these goals?

4. What would be the key indicators of success in this strategic value area?
