Growing and Stewarding Partnerships

Creating and Innovating for Maine and Beyond
As a public institution, the university partners with other entities in fulfilling its teaching, research, and service/outreach missions. These partnerships leverage the university's and its collaborators' assets to advance the cultural, economic, and civic interests of Maine communities even when a direct impact on the university's mission is not obvious. In this way, we serve as good stewards of the resources entrusted to us by the people of Maine through their elected representatives, and by our many partners in science, industry, commerce, state and local government, and the arts.
Growing and Stewarding Partnerships

Our Guiding Questions for Today

- How well does this statement capture a strategic value that should guide the University’s development?
- What goals should the university pursue that would best express this strategic value?
- What strategies should the University employ to achieve these goals?
- What would be the key indicators of success in this strategic value area?
