INTRODUCTION

The K-12 National Directory on Canada is a summary of where in each state’s curriculum Canada or Canadian content is included. Arranged alphabetically by state, it offers a synopsis of state content standards which prescribe or mention the study of Canada. This inventory of Canadian content in the American curriculum is organized in three categories:

**Required Canadian content in state standards:**
Under this heading the reader will find a list of standards which prescribe the study of Canada at a given grade. The state standards specifically name Canada, major Canadian cities, or other specific aspects of Canadian geography, history, culture.

**Recommended Canadian content:**
Under this category, the state social studies curriculum includes or suggests as an example Canada or specifically Canadian topics “e.g.”, “for example”, or “including”: Canada, NAFTA, Quebec, NATO, Great Plains Region, and specifically named Canadian aboriginal nations.

**Suggested Canadian content:**
The compilers of this directory suggest that Canada and Canadian Studies can be included in the curriculum if it covers these topics which lend themselves to the inclusion of Canadian content.

- Allies
- Arctic, Polar Regions
- Explorers, European settlement/colonization of North America
- Geography
- Other government systems
- Native Americans
- North America, Western Hemisphere
- Trade, International Trade
- Vikings
- War of 1812

**PLEASE NOTE:**

- The following summary relies on what is published on each state’s department of education website as of January/February 2013.

- Common Core State Standards for ENGLISH LANGUAGE ART S & Literacy in History/Social Studies, Science, and Technical Subjects are in some states replacing specific social studies standards. For explanation of the Common Core, see: [www.corestandards.org/ELA-Literacy/RH/6-8](http://www.corestandards.org/ELA-Literacy/RH/6-8).

- Contact information for state social studies specialists and presidents of social studies councils was collected from [https://sites.google.com/a/ngs.org/cs4/directory](https://sites.google.com/a/ngs.org/cs4/directory) and [www.socialstudies.org/getinvolved/ncssaffiliatecouncils](http://www.socialstudies.org/getinvolved/ncssaffiliatecouncils).

**Required Canadian content in state standards:** No specific unit.

**Recommended Canadian content:**
Grade 3: Discuss European explorers (e.g., Samuel Champlain, Henry Hudson, John Cabot, Jacques Cartier, Ponce de Leon, Hernando de Soto) and their discoveries in the New World. Describe how the search for a Northwest Passage to Asia led to the exploration and settlement of Canada.

**Suggested Canadian Content:**
Grade 5: Recognize that Native American tribes resided throughout North America before the period of European exploration and colonization. Explain the reasons for the explorations of Samuel Champlain, Henry Hudson, John Cabot, Jacques Cartier, Ponce de Leon, and Hernando de Soto in the New World.
Grade 9-12: Impact of expansion and colonization on Africa, the Americas, and Asia. Analyze how the following events affected the political transformation of the developing nation: Jefferson’s Presidency, War of 1812, Jackson’s Presidency. Identify how economic incentives and geography influenced early American explorations: explorers, and fur traders. Describe the effects of international trade on the United States and other nations.

Required Canadian content in state standards:  No specific unit.

Recommended Canadian content:
Grade 8 History and Geography: Students analyze U.S. foreign policy in the early Republic. Understand the political and economic causes and consequences of the War of 1812 and know the major battles, leaders, and events that led to a final peace. Know the changing boundaries of the United States and describe the relationships the country had with its neighbors (current Mexico and Canada) and Europe.
Grade 11U.S. History and Geography: Hemispheric Relationship in the Postwar Era. A study of postwar relationships between the United States and Canada should note the long history of peaceful, negotiated settlement of problems between these nations. To ascertain certain problems, students should become sensitive to the Canadian perspective and to Canada’s heavy economic dependence on its forest products and its oceanic grounds. In turning to the World court to settle fishing rights to the prolific Georges Bank fishing grounds off Nova Scotia, the United States and Canada provide an important case study in peaceful arbitration between nations. Among the unresolved problems confronting these two nations is the problem of acid rain, an issue of global interdependence that concerns other nations in the industrialized world today.

Suggested Canadian content:
Grade 5—United States History and Geography: Making a New Nation, Students describe the cooperation and conflict that existed among the American Indians and between the Indian nations and the new settlers. The Land and People Before Columbus, and Age of Exploration
Grade 12 Principles of Economics, Students analyze issues of international trade and explain how the U.S. economy affects, and is affected by, economic forces beyond the United States’ borders.

Required Canadian content in state standards: No specific unit.

Recommended Canadian content:
Grade 6 History: The historical eras, individuals, groups, ideas and themes in regions of the Western Hemisphere and their relationships with one another. Determine and explain the historical context of key people, events, and ideas over time including the examination of different perspectives from people involved. Topics to include but not limited to Aztec, Maya, Inca, Inuit, early Native American cultures of North America, major explorers, colonizers of countries in the Western Hemisphere.

Suggested Canadian content:
Grade 5 History: Analyze historical sources from multiple points of view to develop an understanding of historical context. Create timelines of eras and themes in North America from 1491 through the American Revolution. Analyze cartoons, artifacts, artwork, charts, and graphs related to eras and themes in North America from 1491 through the American Revolution. The historical eras, individuals, groups, ideas, and themes in North America from 1491 through the founding of the United States government.
Grade 5 Geography: Causes and consequences of movement. Technology has influenced movement to, colonization of, and the settlement of North America.
Grade 6 Geography: Identify physical features and explain their effects on people in the Western Hemisphere. Give examples of how people have adapted to their physical environment. Analyze positive and negative interactions of human and physical systems in the Western Hemisphere.
Grade 6 Civics: Analyze the interconnectedness of the United States and other nations. Nations are interconnected and affect each other on a daily basis. Technology provides daily information regarding the interaction between the United States government and other nations. Compare multiple systems of government.
Grade 7 Civics: Different forms of government and international organizations and their influence in the world community. Compare different forms of government in the world and how they derive their authority. Evaluate how various nations interact, resolve their differences, and cooperate. Analyze conflicts among nations including causes and consequences. Describe common interests and evaluate examples of global collaboration. Use criteria that identify the attributes of a good government and apply to specific examples.
Grade 8 Economics: Economic freedom, including free trade, is important for economic growth. The understanding of trade and collaboration within the market economy is important to business and individual economic success. Analysis of the positive and negative impacts of trade agreements is critical to a nation’s economy. International trade policies.
Grades 9-12 Geography: The interconnected nature of the world, its people and places
Grades 9-12 Economics: Economic policies affect markets
Grades K-12 World Language: Students acquire and use knowledge of cultures while developing foreign language skills

Required Canadian content in state standards: No specific unit.

Recommended Canadian content:
Grade 4: The study of significant events, people and geographic features of CT in the past and today, with comparisons to other US states and one or more states, provinces, and/or areas in other countries.

Suggested Canadian content:
Grade 6/7 History: World Regional Studies of up to four countries or regions from different continents considering the geography, two selected periods of history, and contemporary cultures of these countries. Compare and contrast the economic, political and/or religious differences that contributed to conflicts (e.g. French and Indian Wars). Identify examples of interactions between the US and other countries/areas worldwide. (e.g. current events, relief funds for worldwide disaster, UN peacekeeping). Compare and contrast historical events in other nations with those in U.S. history (e.g. settlement, revolution, U.S. Constitution, effects of natural disasters).
Grade 6/7 Geography: Interaction of humans and the environment. Describe how civilizations used technology to manipulate the environment (e.g. canals, dams, landfill projects). Compare two countries/regions or two historical periods in the same country/region using visual representations (e.g. charts, maps, graphs).
Grade 6/7 Civics: Compare and contrast different forms of governance in the past and present (e.g. monarch, dictatorship, representative democracy, parliament).
Grades 9-12: World History/International Studies—Whether using a chronological or thematic approach, this required course should include a significant amount of 20th/21st century material with review of earlier events where necessary to provide appropriate background and context. Evaluate the changing role of US participation and influence in world affairs (e.g. trade, UN, NATO, globalization). Analyze historical and contemporary examples of the efforts to ensure human rights at the national and international levels (e.g. Amnesty International, Geneva Conventions, UN Declaration of Human Rights).

Required Canadian content in state standards: No specific unit.

Recommended Canadian content:
Grade 7 Economics: Nations with different economic systems specialize and become interdependent through trade and how government policies allow either free or restricted trade. Analyze the impact of free trade agreements on consumers, workers, and producers, e.g. NAFTA, CAFTA
Grades 9-12 Geography: Students will apply knowledge of the types of regions and methods of drawing boundaries to interpret the Earth’s changing complexity. Students should recognize that regions and their boundaries are not always permanent, since the conditions that created them may have changed over time. For instance, the regional boundaries of Native American tribes prior to European settlement were severely disrupted or obliterated after many Native American groups were forcibly moved from their original lands. On the other hand, in Northern Canada, assertion of Native American rights has produced a new set of regional self-governing territories, such as Nunavut.

Suggested Canadian content:
Grade 4 Civics: Compare basic structures of various governments beyond the U.S. borders
Grade 5 Economics: International trade links countries around the world and can improve the economic welfare of nations
Grades 9-12 Civics: Understand the structure and purposes of different governments around the world differ in terms of ideologies, cultures, values, and histories

Required Canadian content in state standards:
Grade 11 US History and Geography: Explain the major goals of the North American Free Trade Agreement (NAFTA) and its impact on the U.S., Mexican, and Canadian economies.

Recommended Canadian content:
Grade 4 US History and Geography: Land and people before European exploration. Students describe the different peoples, with different languages and ways of life, that eventually spread out over the North and South American continents and the Caribbean Basin, from Asia to North America (the Bering Strait) (e.g., Inuits, Anasazi, Mound Builders, the Caribs).

Suggested Canadian content:
Grade 2 Geography: Students describe the North American landscape, indigenous adaptations to it, and modifications to it.
Grade 4 US History and Geography: Age of Exploration. Locate the North, Central, Caribbean, and South American land claimed by European countries. Describe the economic activities within and among Native American cultures prior to contact with Europeans. Settling the Colonies. Describe the competition between European nations for control of North America.
Grade 8 US History and Geography: Our Colonial Heritage. Students explain the religious, political, and economic reasons for movement of people from Europe to the Americas, and they describe the impact of exploration and settlement by Europeans on Native Americans. Launching the young nation. Explain the political and economic causes and consequences of the War of 1812 and the major battles, leaders, and events that led to a final peace. Identify on a map the changing boundaries of the United States and the relationships the country had with its neighbors (currently Mexico and Canada) and Europe.
Grade 10 World History and Geography: Trace the importance of trade and regional trade treaties (e.g., NAFTA, MERCOSUR, CAFTA, and CARICOM).
Grades 9-12 Economics: Students analyze issues of international trade and explain how the U.S. economy affects, and is affected by, economic forces beyond U.S. borders. Identify the gains in consumption and production efficiency from trade, with emphasis on the main products and changing geographic patterns of 20th-century trade among countries in the Western Hemisphere.
Grades 6-12 Modern World Languages: Students demonstrate an understanding of the relationship between the practices and perspectives of the culture studied and of the relationship between the products and perspectives of the culture studied.

Required Canadian content in state standards: No specific unit.

Recommended Canadian content:
Grade 5 History: Examine accounts of early European explorations of North America including major land and water routes, reasons for exploration and the impact the exploration had. Example: The Viking explorations and settlements in North America; expeditions by French explorers Jacques Cartier and Samuel de Champlain; and expeditions by, Henry Hudson.

Grade 6 Geography: Locate the countries and capitals of Europe and the Americas such as Great Britain, Russia, Mexico, Canada and Brazil. Compare the distribution of natural gas, oil, forests, uranium, minerals, coal, seafood and water in countries such as Brazil, Mexico, Canada, Great Britain and Russia. Describe and compare major physical and cultural characteristics of regions in Europe and the Western Hemisphere. Example: aboriginal values and cultures in Canada. Describe mountains and bodies of water in Europe and the Americas. Example, Canadian Rockies. Identify major biomes of Europe and the Americas. Example Canadian low Arctic tundra. Identify current patterns of population distribution and growth in Europe and the Americas using a variety of geographic representations. Example: Rural and urban areas of Brazil, Canada, Mexico, Russia and Great Britain. Evaluate and present data on people, cultures and developments in Europe and the Americas. Example: Show the impact of immigration patterns in Canada.

Grade 6 Civics: Compare citizens roles in selected countries of Europe and the Americas. Example: Compare methods of participation in the government in Great Britain, Russia, Brazil, Mexico and Canada.

Grades 9-12 Geography and History of the World: Analyze and assess the impact of urbanization on the physical and human environments in various parts of the world. Example: Compare and contrast Quebec City (French) with Edmonton (English), Canada. Recognize that conflict and cooperation among groups of people occur for a variety of reasons including nationalist, racial, ethnic, religious, economic and resource concerns that generally involve agreements and disagreements related to territory on Earth’s surface. Example: U.S. and Canada conflict and cooperation related to salmon in the Straits of Georgia and Juan de Fuca (1950–present). Trace the development and extent of a variety of regional and global cooperative organizations for different time periods. Describe why each was established. Assess their success or lack of success. Example: North Atlantic Treaty organization (NATO), North American Free Trade Association (NAFTA). Describe the spread of specific sports from their geographic origins. Analyze the spatial patterns that emerge. Example: lacrosse (Canada, Native Americans).

Grades 9-12 US Government: Identify the costs and benefits to the United States of participating in international organizations. The United Nations (UN), North Atlantic Treaty Organization (NATO), World Trade Organization (WTO) and North American Free Trade Association (NAFTA).

Suggested Canadian content:
Grade 5 History: Identify and compare historic Indian groups of the West, Southwest, Pacific Northwest, Arctic and sub-Arctic, Great Plains, and Eastern Woodlands regions at the beginning of European exploration in the late fifteenth and sixteenth centuries.

Grade 8 History: Explain the causes and consequences of the War of 1812

Grades 9-12 World Geography: Assess the role played by maps I the explorations of Polar Regions. Describe and illustrate the economic interdependence of countries and regions. Example: Use a flow chart and maps to show the movement of oil from producers to consumers.
Grades 9-12 Economics: Evaluate the arguments for and against free trade. Discuss how and why countries sometimes erect barriers to trade. Explain the benefits of trade among individuals, regions and countries.

Grades 9-12 Geography and History of the World: Analyze how transportation and communication changes have led to both cultural convergence and divergence in the world. Example: Railroads promoting convergence (Australia, India, North America, 1800–1900s); automobiles and airplanes promoting convergence among places connected and divergence for places not connected (North America, 1900s).

Required Canadian content in state standards:
Grade 6 Western Hemisphere Unit: Includes study of Canadian geography, history, economics, civics. Draw a map from memory of the Western Hemisphere showing the major regions: Canada, United States, Mexico, Central America, South America, and Caribbean. Describe how the culture of early peoples of North America reflected the geography and natural resources available (e.g., Inuit of the Arctic, Kwakiutl of the Northwest Coast; Anasazi and Apache of the Southwest). Explain that communities are affected positively or negatively by changes in technology (e.g., Canada with regard to mining, forestry, hydroelectric power generation, agriculture, snowmobiles, cell phones, air travel). Identify places in the Western Hemisphere that have been modified to be suitable for settlement by describing the modifications that were necessary (e.g., Vancouver in Canada; irrigated agriculture; or clearing of forests for farmland). Describe the cultural clash of First Peoples, French and English in Canada long ago, and the establishment of Nunavut in 1999. Describe the human characteristics of a region by identifying the unifying characteristics such as the cultural traditions maintained in French-speaking Canada. Give examples of how countries work together for mutual benefits through international organizations (e.g. NAFTA). Cooperation/Conflict: border between the US and Canada

Recommended Canadian content:
Grade 5 History: Describe the life of peoples living in North America before European exploration. Use maps to locate peoples in the desert Southwest, the Pacific Northwest. Compare how American Indians in the desert Southwest and the Pacific Northwest adapted to or modified the environment.
Grades 9-12 Civics: Evaluate the role of the United States in important bilateral and multilateral agreements (e.g., NAFTA)

Suggested Canadian content:
Grade 5 History: Use case studies of individual explorers and stories of life in Europe to compare the goals, obstacles, motivations, and consequences for European exploration and colonization of the Americas (e.g., economic, political, cultural, and religious). Explain the impact of European contact on American Indian cultures by comparing the different approaches used by the British and French in their interactions with American Indians.
Grades 9-12 Civics: Analyze the impact of American political, economic, technological, and cultural developments on other parts of the world (e.g., immigration policies, economic, military and humanitarian aid, computer technology research, popular fashion, and film).

### Required Canadian content in state standards:

**Grade 4 Geography:** Name and locate countries neighboring the United States and their major cities. Use data to analyze and explain the changing distribution, including geographic factors, of population in the United States and Canada over the last century. Describe how the location of resources and distribution of people and their various economic activities has created different regions in the US and Canada.

**Grade 8 Geography:** Describe the locations of human populations and the cultural characteristics of the United States and Canada. Describe how the physical and environmental features of the United States and Canada affect human activity and settlement. Explain how the changing patterns of industrialization and trade between the United States, and Canada or Mexico, have resulted in close connections between the countries in terms of manufacturing, energy and finance. For example, North American Free Trade Agreement, trade patterns between Minnesota and Canada, the building of the Great Lakes Seaway, the manufacturing of automobiles and other products in the Great Lakes Industrial Region, the development of the Canadian oil and gas fields and the pipelines connecting them to markets in the United States. Describe the impact of comparative advantage, the international division of labor, and de-industrialization on manufacturing regions and commercial districts within urban areas in the US and Canada.

### Recommended Canadian content:

**Grade 4 Geography:** Create and use various kinds of maps, including overlaying thematic maps, and use latitude and longitude, of places in the United States and also Canada or Mexico. Choose appropriate data from map, charts, photos to answer specific questions about geographic issues in the US and also Canada or Mexico. Locate and identify the physical and human characteristics of places in the US, and also Canada or Mexico.

**Grade 5 History:** Compare and contrast life within the English, French, and Spanish colonies in North America.

**Grade 7 History:** Analyze the changing relations between the United States and other countries around the world in the beginning of the twenty-first century. (US in a New Global Age: 1980-present) For example: NAFTA.

### Suggested Canadian Content:

**Grades K-12 American Indian Curricula:** Includes knowing the nations in North America

Required Canadian content in state standards: No specific unit.

Recommended Canadian content:
Grade 5 Geography: American Indians developed unique cultures with many different ways of life. American Indian tribes and nations can be classified into cultural groups based on geographic and cultural similarities. The cultural groups of Canada and the US include: Arctic, Subarctic, Northeast, Southeast, Plains, Northwest Coast. Make generalizations about the ways of life among American Indian groups in North / South America.

Grade 8 History: The American Revolution was made possible in part by chain of political economic and social changes occurring during the Enlightenment as a series of actions including the Quebec Act.

Suggested Canadian content:
Grade 5 History: Variations among physical environments within the Western Hemisphere influence human activities. Human activities also alter the physical environment. European exploration and colonization had lasting effects which can be used to understand the Western Hemisphere today.

Grade 8 History: North America, originally inhabited by American Indians, was explored and colonized by Europeans for economic and religious reasons. Competition for control of territory and resources in North America led to conflicts among colonizing powers.

Grades 9-12 Geography: Human modifications of the physical environment in one place often lead to changes in other places (e.g. construction of a dam, the St. Lawrence Seaway).

Required Canadian content in state standards: No specific unit.

Recommended Canadian content:
Grade 6 Geography: Identify on a political map the major urban centers and countries including all nations of North America, and major metropolitan areas including Toronto, Montreal, Vancouver. Identify on a physical map and describe the major landforms and bodies of water of the Western Hemisphere including Hudson Bay, and the Canadian Shield. Describe the characteristics and relative location of major cultural regions of the Western Hemisphere including the Inuit indigenous peoples of the Arctic, and French-speaking Quebec. Explain and summarize how common characteristics can link as well as divide regions including the question of sovereignty for French-speaking Canadians, the free trade relationships established by NAFTA. Summarize the impact of the distribution of major renewable and nonrenewable resources and evaluate how the three levels of economic activities (primary, secondary, and tertiary) contribute to the development of a country or region including the US’ and Canada’s access to fossil fuels, water, iron, and arable soil.

Grades 9-12 History: Describe and evaluate the continuing global influence of the United States under the leadership of President Bill Clinton including NAFTA and the NATO interventions to restore stability to the former Yugoslav republics.

Suggested Canadian Content:
Grade 4 Geography: Locate landforms and bodies of water on a map of North America. Locate the current boundaries of the United States. Examine and summarize the reasons for the key expeditions of Spain, France, and England and their impact on the development of each region including the explorers Cabot, Hudson.

Grade 6 Geography: Examine the cultural and physical characteristics of the major regions of the Western Hemisphere, economic, political and physical regions of North America.

Delaware Model unit Gallery Template: “Thinking Economically”
www.doe.k12.de.us/infosuites/staff/ci/content_areas/files/ss/Thinking_Economically_9-11.doc

International Trade most often takes place between private citizens, both consumers and producers, who live in different countries. These citizens specialize and produce those goods and services they can produce at the lowest cost. They then trade for goods that would cost them more to produce.

First assignment: Create a presentation about America’s current trade relationship with Canada.

Georgia Standards.org: Fourth Grade Unit 2 “The discovery of North America”
www.georgiastandards.org/Frameworks/GSO%20Frameworks/SS_Gr_4_Unit_2_10-20-09_PRchgs.pdf

In this unit, students will learn about the groups of people who first inhabited North America before the Age of Exploration. Students will learn how location helped the Native Americans throughout the continent establish settlements and utilize the resources available in their area. By understanding the intrinsic reasons for movement/migration, students will learn how the Native American and European explorers affected each other and the development of culture and economy in North America.

Georgia Standards.org: Sixth Grade Unit 8 “Canada Today”
www.georgiastandards.org/Frameworks/GSO%20Frameworks/SS%20Gr%206%20Unit%208.pdf

This unit will focus on modern Canada. Conflict and change will be studied as students analyze Quebec’s independence movement. The theme of culture will be examined as students describe the influence of the French and English on the languages and religions of Canada. The theme of governance will be a unit focus as students determine the system of government found in Canada.

Georgia Standards.org: Sixth Grade Unit 9: “Environmental and Economic Forces in Canada”
www.georgiastandards.org/Frameworks/GSO%20Frameworks/SS%20Gr%206%20Unit%209.pdf

In this unit, students will focus on economic development in Canada. Students will analyze human environmental interaction with the environment by looking at the impact of government policies and individual behaviors. Students will explain how the location and availability of resources affect where people in Europe live and how the unequal distribution of resources impacts trade in Europe. The theme of production, distribution, and consumption will be studied as students evaluate how voluntary trade benefits buyers and sellers in Canada. Students will describe the factors that influence economic growth and examine their presence or absence in Canada. Students will also explain how the literacy rate in Canada affects this nation’s development in the modern world.
