

VEMI Undergraduate Research Assistant

The VEMI Lab is seeking two undergraduate students for Research Assistant positions in the lab. After a trial internship, these positions will be paid and have the potential for year-round work. VEMI Undergraduate Research Assistants will be expected to: (1) Conduct background research/literature reviews, (2) write protocols for given experimental designs, (3) run human subjects in online and in-person studies, (4) contribute to the write-up of reports, and (5) assist the Research Manager and other team members with other research-related tasks as needed.

Requirements:

- Interest and aptitude to learn the skills necessary for this position.
- Good communication and interpersonal skills.
- Ability to solve problems quickly and creatively.
- Experience working collaboratively with others.

If you are interested in this position, please email VEMI Director Dr. Richard Corey at richard.r.corey@maine.edu with the following information:

1. Letter of interest
2. Resume/CV
