Strategic Value: Fostering Learner Success

Fostering Learner Success

The University is a diverse community committed to fostering success opportunities for all of its learners. We create rich learning opportunities in the classroom, laboratory, studio, field, and community as well as the spaces within which students live, work, and socialize. We create pathways for success and assure that our students are prepared for successful careers and productive lives. Our faculty and staff are life-long learners and we are committed to their professional development over the span of their careers. Our community welcomes learners from all backgrounds who do not easily fit the traditional definition of “student” and we are committed to their learning success. We celebrate the diversity of our community and are committed to creating a safe and respectful environment within which all learners can flourish.

Fostering Learner Success

Our Guiding Questions for Today

How well does this statement capture a strategic value that should guide the University's development?

What goals should the university pursue that would best express this strategic value?

What strategies should the University employ to achieve these goals?

What would be the key indicators of success in this strategic value area?

Fostering Learner Success
