

UMM Staff Forum: FEB-04-2019

Things that are missing from the Values Statements:

- Teaching and education
- Hands-on learning: leadership from the institution's standpoint, developing leaders, and developing leadership qualities within our grads
- Creative economy: We "encourage" designers... artists etc...
- Incorporate some mention of supervision/mentorship
- Development opportunities for staff: faculty and staff
- Hands-on training to help impact at-risk students navigate our systems
- More integration of res-life/commuter-life activities
- More mention of the partnerships with UMM
- How we develop joint action plans, and how we approach to process improvement
