WGS 401/501 (001) Advanced Topics in WGS: Goddesses
Once upon a time, the Goddess was the foundation of human culture. This statement is supported by large bodies of mythological, archeological, and historical evidence. However, over the millennia, the Goddess’ role in society changed fundamentally, and today appears diminished and distorted, if not absent altogether. What happened? In this course, we examine the presence of the Goddess throughout the arc of human existence focusing on western civilization from the Aurignacian Period (30,000 BCE) to the present period. We explore how and why the Goddess’ role evolved over time, and how did evolution mirror historical changes in society. Some of the questions we will ask are, What did the Goddess represent to our ancestors?; What was lost or gained with the demise of the Goddess?; and Can we find the Goddess in today’s world? (Anu Dudley, TTH 11:00-12:15, #44422)
